South of Heaven - Daniel Flores 2011-07-27
In late 2005, the total casualties in Afghanistan
were just barely over one hundred; meanwhile,
the news agencies were publicizing, each day,
the thousands of American soldiers who were
dying in Iraq. There was rarely any mention at
all of the conflict going on in Afghanistan. Little
did Daniel Flores know that one year later he
would be witness to the Taliban resurgence and

lose some of his friends in the war. He was locked in a battle for his life against a determined enemy, in one of the most notorious and highly contested valleys in the Hindu Kush, in his Apache gunship without bullets. South of Heaven is the searing memoir of Floress year-long tour of duty in Afghanistan. One of his missions was featured in a segment on the Military Channels My War Diary program. The segment was based on the rescue of an American Convoy in the Tagab Valley in Afghanistan. The video and audio footage of the actual battle that he shot with his own equipment was used in the production. The final week of his rotation in-country was a true test of his faith and his daughters faith that he would return home unharmed.

Final Finalist - James Fleming 2012-05
"Evil is a survivor." The military and the Central Intelligence Agency signed a secret agreement for joint military/ CIA special operations. It was a historical shift of power that militarized spy

operations. The agreement was the key to getting Osama bin Laden. Retired Deputy Director of the CIA, Bob Wells, recruits a former operative - Jon London - for a covert mission to stop a deadly plot against the United States. Wells convinces Kate Breeden to partner with London on a perilous journey through an uninhabited rainforest in Central America. Ultimate success depends upon their daring - and on the military.

Otard - Lawrence Qua CC 2016-04-27
Otard sounds like a name of a Brand of Brandy. In Southeast Asia, Otard would mean brain, but the spelling would be Otak. This is the story of Otard. This is a true story, but I classified it as fiction as it is too good to be true. No one would have believed that there is such a thing as

Otard, a world brain, that manages our daily life. He cooks, cleans, and work, and settings world events. This book is about that particular person, and to clear his name as God of Great Britain, or world brain of the people. This book also deals a lot with paper works, as vision frames, or scrap books experienced and results. The author is not a competent speaker before, but now with the aid of the scrap books and vision charts, he experienced a new tongue and able to communicate freely. He is able to tell the true story of really what happened to him in Great Britain, and how he survived to today. This is the life of a brain, the life of Otard and world events.
