In Tom Kundig: Works, the celebrated Seattle-based architect presents nineteen new projects, from Hawaii to New York City. Kundig's award-winning houses, known for their rugged yet elegant and welcoming style, are showcased in lush photography with drawings and sketches, and appear alongside his commercial work—from multistory complexes to the Tacoma Art Museum to a line of hardware (handles, door pulls, hinges, and more). In firsthand accounts, Kundig describes the projects and his design process with many personal anecdotes, making Tom Kundig: Works as much memoir as monograph. The book also includes an introduction by design editor Pilar Viladas and in-depth conversations with Kundig's frequent collaborators—"gizmologist" Phil Turner and contractor Jim Dow (Schuchart/ Dow)—and clients (Bigwood Residence and Studhorse).

The Black Hand - Chris Blatchford 2009-10-06

THE BLACK HAND is the true story of Rene Enriquez, aka "Boxer," and his rise in a secret criminal organization, a new Mafia, that already has a grip on all organized crime in California and soon all of the United States. This Mafia is using a base army of an estimated 60,000 heavily armed, loyal Latino gang members, called Surenos, driven by fear and illicit profits. They are the most dangerous gang in American history and they wave the flag of the Black Hand. Mafioso Enriquez gives an insider's view of how he devoted his life to the cause--the Mexican Mafia, La Familia Mexicana, also known as La Eme--only to find betrayal and disillusionment at the end of a bloody trail of violence that he followed for two decades. And now, award-winning investigative journalist Chris Blatchford, with the unprecedented cooperation of Rene Enriquez, reveals the inner workings, secret meetings, and elaborate murder plots that make up the daily routine of the Mafia brothers. It is an intense, never-before-told story of a man who devoted his life to a bloody cause only to find betrayal and disillusionment. Based on years of research and investigation, Chris Blatchford has delivered a historic narrative of a nefarious organization that will go down as a classic in mob literature.

Crazy - Han Nolan 2018-04-01

A National Book Award-winning author's "moving" novel about "the emotional costs of mental illness, especially on teens forced to parent their own parents" (Booklist, starred review). His mother has died. His father is going crazy. For fifteen-year-old Jason, the only relief as he tries to hold things together is the group of imaginary friends who offer guidance as he tries not to draw attention to his father's deteriorating condition—or to himself. But between the traumas of his childhood and the squalor and stress he's dealing with right now, Jason's attempts to remain invisible may not be enough. To find a solution to this very real problem, he just might have to reach out to some very real people . . . In this compelling story by the author of *Dancing on the Edge*, Han Nolan "balances weighty subject matter with humor, offering an intelligent portrayal of a boy's slow release of burdens too heavy to carry alone"

(Publishers Weekly).

Twelve Years a Slave - Solomon Northup 2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

308 Circuits - Jan Buiting 2003

This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics:

test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

Ask Dr. Mueller - Cookie Mueller 1997

Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from *Walking Through Clear Water in a Pool Painted Black* and other publications. Also the best of Cookie's art columns from *Details* magazine, and the funniest of her advice columns from the *East Village Eye*, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before *Bright Lights*, *Big City*, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.
