The Pustoy - Philippe Blenkiron 2014-05-31

Britain, in the mid 21st century. A new prime minister, Lev Solokov is elected. In spite of his Russian surname, he is the charismatic politician who, on the surface, appears to be just what Britain needs. But he's not what Gavin needs. Gavin is a Pustoy, a human who, among countless others, Solokov's researchers has declared a soulless, subhuman race. Solokov joins a dark lineage of genocidal tyrants that have gone before him. In synthesizing his own race to persecute others, perhaps he has succeeded in a horror more insidious than any of his forebears, especially as he appears to have done so with both overwhelming public blessing and encouragement. Or at least he would have, if not for the increasing din of the Pustoy protesting outside his offices. Chosen at random owing to his position as a forefront campaigner for the rights of the Pustoy, Gavin is framed for a crime he didn't commit and is forced to go on the run, and so Solokov in one fell swoop kills any budding sympathy the people may have had for the Pustoy, and would appear to have silenced one of his loudest protestors. Just who are the Pustoy of this world? The persecutors or the persecuted? Will Gavin remain a hunted scapegoat? Is Solokov acting for the greater good; are the Pustoy really devoid of a soul? More importantly, how far away is this future, really? Phillippe Blenkiron's conceptual poetry collection demands these questions of the reader, whilst offering an unflinching examination of the human psyche, exploring the clouded moral hues between black and white, between right and wrong, that exist inside all of us. For fans of "1984," "Brave New World," and other greats of dystopian fiction, Philippe Blenkiron's debut poetry collection is shocking, unsettling, and closer to real-life than we dare admit...

And We're Off - Dana Schwartz 2017

Jack McAfghan - Kate McGahan 2015-04-02

An expert communicator, Jack McAfghan writes the memoirs of his four-legged life as a mixed-breed Afghan Hound. From obedience and agility training to hospice work, Jack and his master learn their lessons side by side, inevitably applying what they have learned as their own lives unfold. It is a love story that can be used as an informal study guide for those who are in the process of training a dog, learning to love, or grieving over the loss of a friend. Jack presents with a wise, open and informed mind. He speaks firsthand about the psychological aspects of canine behavior as he opens the reader's mind to the possibilities that exist in life and after death. He reminds us that the way we think can change the course of our lives. This story will touch everyone who has ever loved. It matters not if they have four legs or two. Jack leads us to a higher love as he expands our tolerance and compassion for all of humanity. He extends himself to every creature of the earth, every human on the planet, every spirit in the universe and most of all, to the bona fide Master over all.

Virtual Economies - Vili Lehdonvirta 2014-05-09

How the basic concepts of economics—including markets, institutions, and money—can be used to create and analyze economies based on virtual goods. In the twenty-first-century digital world, virtual goods are sold for real money. Digital game players happily pay for avatars, power-ups, and other game items. But behind every virtual sale, there is a virtual economy, simple or complex. In this book, Vili Lehdonvirta and Edward Castronova introduce the basic concepts of economics into the game developer's and game designer's toolkits. Lehdonvirta and Castronova explain how the fundamentals of economics—markets, institutions, and money—can be used to create or analyze economies based on artificially scarce virtual goods. They focus on virtual economies in digital games, but also touch on serious digital currencies such as Bitcoin as well as virtual economies that emerge in social media around points, likes, and followers. The theoretical emphasis is on elementary microeconomic theory, with some discussion of behavioral economics, macroeconomics, sociology of consumption, and other social science theories relevant to economic behavior. Topics include the rational choice model of economic decision making; information goods versus virtual goods; supply, demand, and market equilibrium; monopoly power; setting prices; and externalities. The book will enable developers and designers to create and maintain successful virtual economies, introduce social scientists and policy makers to the power of virtual economies, and provide a useful guide to economic fundamentals for students in other disciplines.

No Way! Okay, Fine - Brodie Lancaster 2017-06-27

"Brodie is whip smart; merging pop-culture references with vulnerable, personal experiences to create a collection that reads like a hilarious catch-up call with an old friend. What a pleasure to hear from this fresh, extremely relevant point of view." Abbi Jacobson, CO-CREATOR / WRITER / STAR of BROAD CITY "I wish Brodie was the voice of my inner monologue; narrating me through life with her fierce intelligence and never-ending pop culture references. Instead, I'll just settle for this extremely relatable, unashamedly funny, powerful and beautifully vulnerable book No Way! Okay, Fine." - Courtney Barnett, ARIA award winning and Grammy nominated songwriter and musician. 'I identified early on that my role in relationships was the sidekick, the platonic female cast member in an all-male production, or the friend who was relied on selectively when other options were unavailable. I was the comic relief or the stand-in, never the lead. I knew this, I felt it, I wrote it down, but I didn't dare say it aloud because that would prove that I cared and caring wasn't cool.' From the small town in regional Australia where she was told that 'girls can't play the drums' to New York City and back again, Brodie has spent her life searching screens, books, music and magazines for bodies like hers, girls who loved each other, and women who didn't follow the silent instructions to shrink or hide that they've received since literal birth. This is the story of life as a young woman through the lenses of feminism and pop culture. Brodie's story will make you re-evaluate the power of pop culture in our lives - and maybe you will laugh and cry along the way. 'Brodie Lancaster is a thoughtful and patient writer, and this book is a generous, deep dive into her psyche. Brodie's thoughts about her body, her friends and lovers, her choices and fears are all presented with the same staccato blast of pop culture touchstones, and if you love boy bands/the internet/reality television/the Gilmore Girls/literally every other thing that is good in the world, you will adore this book.' - Emma Straub, bestselling author of THE VACATIONERS and MODERN LOVERS.

Machine Knitting - Denise Musk 1992

With the increasing popularity of machine knitting, this book shows the reader how to make their own

pattern cards, one of the keys to pattern design. Following the instructions in this book, the reader will be able to alter and adapt stitch ideas to produce an individual and distinctive look to garments without having to rely on reproducing ready-made stitch patterns from books and magazines. Chapters in this book include understanding the pattern card, yarn, the principles involved, Fairisle card design, slip stitch, tuck stitch, myler sheet design and combining patterns. Denise Musk is the author of Machine Knitting: The Technique of Slip Stitch.

The Bureau of Suspended Objects: Objects in Use - Jenny Odell 2016-01-17

This book accompanies "The Bureau of Suspended Objects" installation at the Contemporary Jewish Museum, opening January 28. The objects in this book correspond to the second section of the display: objects that belong to me or that I grew up with at my parents' house. They come from bookshelves, desks, attics, and shoeboxes, and have been owned long enough to have acquired some emotional value - thus becoming more than an anonymous product at the store. However, it's possible that this aura of meaning is visible only to their owners.
