**Romulus, My Father** - Raimond Gaita  
1999-09-01

Winner of the 1998 Victorian Premier's Literary Award for Non-Fiction, Romulus, My Father is

an iconic and deeply loved book. Romulus Gaita fled his home in his native Yugoslavia at the age of thirteen, and came to Australia with his young wife Christina and their infant son Raimond soon after the end of World War II. Tragic events were to overtake the boy's life, but Raimond Gaita has an extraordinary story to tell about growing up with his father amid the stony paddocks and flowing grasses of country Australia. Written simply and movingly, Romulus, My Father is about how a compassionate and honest man taught his son the meaning of living a decent life. It is about passion, betrayal and madness, about friendship and the joy and dignity of work, about character and fate, affliction and spirituality. No one will read this wonderful book without an enhanced sense of the possibilities of being alive. 'I know of no other book where the love between father and son has been more beautifully expressed.'

Transitions to Post-School Life - Margarita Pavlova 2017-11-16

This book addresses growing reservations about the relevance of educational systems to the economic and social needs of individuals by examining different aspects of transitions from school to work or further studies within formal and informal settings in Asia. Highlighting important issues such as selectiveness and

inclusiveness, integration of transversal competencies, vocationalisation of secondary schooling, approaches to career guidance and emerging models of student support, it is of particular interest to educators, policymakers and other stakeholders who are concerned about the effectiveness of system-wide and institutional-based approaches. The first part of the book explores different models, mechanisms and approaches to policy and practice in the context of Asia, while the second part examines Hong Kong students' transitions to post-school life and provides an account of issues and challenges the government and individual schools experience in terms of structural support for both mainstream and special-needs students. *Success One Physics* - 2018 Edit 2018-02-12

*U.S. Health in International Perspective* - National Research Council 2013-04-12

The United States is among the wealthiest nations in the world, but it is far from the

healthiest. Although life expectancy and survival rates in the United States have improved dramatically over the past century, Americans live shorter lives and experience more injuries and illnesses than people in other high-income countries. The U.S. health disadvantage cannot be attributed solely to the adverse health status of racial or ethnic minorities or poor people: even highly advantaged Americans are in worse health than their counterparts in other, "peer" countries. In light of the new and growing evidence about the U.S. health disadvantage, the National Institutes of Health asked the National Research Council (NRC) and the Institute of Medicine (IOM) to convene a panel of experts to study the issue. The Panel on Understanding Cross-National Health Differences Among High-Income Countries examined whether the U.S. health disadvantage exists across the life span, considered potential explanations, and assessed the larger implications of the findings. U.S. Health in International Perspective presents

detailed evidence on the issue, explores the possible explanations for the shorter and less healthy lives of Americans than those of people in comparable countries, and recommends actions by both government and nongovernment agencies and organizations to address the U.S. health disadvantage.

The Saffron Kitchen - Yasmin Crowther  
2007-08-28

In a powerful debut novel that moves between the crowded streets of London and the desolate mountains of Iran, Yasmin Crowther paints a stirring portrait of a family shaken by events from decades ago and worlds away. On a rainy day in London the dark secrets and troubled past of Maryam Mazar surface violently, with tragic consequences for her daughter, Sara, and her newly orphaned nephew. Maryam leaves her English husband and family and returns to the remote Iranian village where her story began. In a quest to piece their life back together, Sara follows her mother and finally learns the terrible

price Maryam once had to pay for her freedom, and of the love she left behind. Set against the breathtaking beauty of two very different places, this stunning family drama transcends culture and is, at its core, a rich and haunting narrative about mothers and daughters.

This Handbook is a comprehensive overview of English language education in Bangladesh. Presenting descriptive, theoretical, and empirical chapters as well as case studies, this Handbook, on the one hand, provides a comprehensive view of the English language teaching and learning scenario in Bangladesh, and on the other hand comes up with suggestions for possible decolonisation and de-eliticisation of English in Bangladesh. The Handbook explores a wide range of diverse endogenous and exogenous topics, all related to English language teaching and learning in Bangladesh, and acquaints readers with different perspectives, operating from the macro to the micro levels. The theoretical frameworks used are drawn from applied linguistics, education, sociology, political science, critical geography, cultural studies, psychology, and economics. The chapters examine how much generalisability the theories have for the context

of Bangladesh and how the empirical data can be interpreted through different theoretical lenses. There are six sections in the Handbook covering different dynamics of English language education practices in Bangladesh, from history, policy and practice to assessment, pedagogy and identity. It is an invaluable reference source for students, researchers, and policy makers interested in English language, ELT, TESOL, and applied linguistics.

is flourishing in contemporary Australian theatre. **The Routledge Companion to Vsevolod Meyerhold** - Jonathan Pitches 2022-11-09  
The Routledge Companion to Vsevolod Meyerhold brings together a wealth of

scholarship on one of the foremost innovators in European theatre. It presents a detailed picture of the Russian director's work from when it first emerged on the modern stage to its multifarious present-day manifestations. By combining an historical focus with the latest contemporary research from an international range of perspectives and authors, this collection marks an important moment in Meyerhold studies as well as offering a new assessment of his relation to today's theatre-making. Its dynamic blend of research is presented in five sections: Histories enlarges on more conventional subjects like the grotesque and Biomechanics, to overlooked topics such as Meyerhold's 'failed' projects and his work in film; Collaborations and Connections extends understandings of Meyerhold's well-known collaborative capacities to consider new cultural influences and lesser known working relationships; Sources engages with hitherto untapped material in Meyerhold's oeuvre by reproducing and contextualising previously

untranslated primary sources on his work; Practitioner Voices offer lively, on the ground, testimony of the contemporary impact of Meyerhold's practice; Meyerhold in New Contexts maps the routes of his practice across continents and examines ways in which his work is being applied in a number of contemporary scenarios, such as motion capture, computer-based 3D visualisations, and the 'new normal' of digital pedagogy. This is a key resource for students and scholars of European Theatre, acting theory, and actor training, as well as for those more broadly interested in the socio-political impact of theatre.

*The Little Book of Restorative Justice* - Howard Zehr 2015-01-27

Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling,

seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in

understanding this innovative and influential movement.
