Too Dumb to Fail - Matt K. Lewis 2016-01-26

From a leading voice among young conservatives, an impassioned argument that to stay relevant the Republican Party must look beyond short-term electoral gains and re-commit to historic conservative values. In 1963 Richard Hofstadter published his landmark book *Anti-Intellectualism in American Life*. Today, Matt Lewis argues, America's inclination toward simplicity and stupidity is stronger than ever, and its greatest victim is the Republican Party. Lewis, a respected conservative columnist and frequent guest on MSNBC's *Morning Joe*, eviscerates the phenomenon of candidates with a "no experience required" mentality and tea party "patriots" who possess bluster but few core beliefs. Lewis traces the conservative movement's roots, from Edmund Burke to William F. Buckley, and from Goldwater's loss to Reagan's landslide victory. He highlights visionary thinkers who understood nuance and deep ideology and changed the course of the nation. As we approach the 2016 presidential election, Lewis has an urgent message for fellow conservatives: embrace wisdom, humility, qualifications, and inclusion -- or face extinction.

Christopher Exley of Everett, Washington, was arrested for conducting a drug deal over the phone—in the bathroom of the Everett Police Department." "During my brother-in-law's first performance review, his boss said, "I'm not quite sure what it is you do here. But whatever it is, could you do it faster?" --Jeanie Waara, Philip, SD "In an attempt to balance work and motherhood, I delegated the grocery shopping to my young babysitter. But the job proved a tad daunting. One day while I was at work, she texted me from the supermarket. "Can't find Brillo pads," she wrote. "All they have are Tampax and Kotex." --Kimberly Clark, Alpharetta, GA "I overheard an elderly gentleman tell his friend that he couldn't meet him the next day because he had to go to the hospital for an autopsy. Movie Stars Do the Dumbest Things - Margaret Moser 2011-04-01

Johnny Depp. Marilyn Monroe. Marlon Brando. Leonardo DiCaprio. Woody Allen. Shanron Stone. What do all of these actors have in common? They're outrageous, receive huge salaries, have enormous egos, and have way too much spare time. Their out-of-control lifestyles prove that, as one Hollywood observer noted, "Hollywood is a trip through a sewer in a glass-bottomed boat." You'll learn which director was furious when he was misquoted as saying, "Actors are cattle." He claimed he had really said, "Actors should be treated as cattle." You'll discover that Bruce Willis ordered the final scenes in *Striking Distance* to be re-shot at a cost of over \$750,000 because the original shots exposed his toupee. You'll find that Melanie Griffith explained her ignorance of the Nazi holocaust by saying, "I don't know why I didn't know. Maybe I missed school that day...I'm not stupid." Whether you're a fan of Hugh Grant, Dennis Hopper, or Whoopi Goldberg, you'll learn about all of the embarrassing moments in your favorite star's life. From actors like Ben Affleck and Cameron Diaz to screen legends like Frank Sinatra and Judy Garland, *Movie Stars Do the Dumbest Things* is proof that actors are more childish and impulsive than you've ever imagined.

Not Dumb, Not Blonde: Dolly In Conversation - Dolly Parton 2017-10-26

Born in poverty in Tennessee, Dolly Rebecca Parton had ambition and determination in spades. Her first single, the ironic Dumb Blonde, launched the now legendary career of a singer-songwriter with a pure country voice and a gift for story-telling. Smart as a whip, Dolly Parton shrugged aside the male-dominated world of Nashville to command her own destiny, creating huge business enterprise in the process: She owns Dollywood theme park and other hospitality venues; she has hosted her own television programs and appeared in films with Jane Fonda, Burt Reynolds and Sylvester Stallone; her Imagination Library project sends free books to children all over the world - For Dolly, dreams are everything and nothing - you gotta roll your sleeves up and get stuck in. Collating interviews and encounters with Dolly Parton from 1967 onwards, *Not Dumb Not Blonde* proves just that. As in her songs, she is unfailingly entertaining, frank and feisty. These are the words of an artist and performer who, beneath the bravado, is deadly serious about her music and career, and this duality proves to be a touching, insightful and joyous read.

Dumb College - Christopher Rogers 2001-03

Dumb College tells the story of Veena Singh, a woman fighting the American society bent on eliminating all paper books, storing the text electronically, and "weeding out" the undesirable and "politically incorrect" text. Veena is an exile, sent to America by her Indian professors to study the American decline in 2049. In her time, the authoritarian nations of Southeast Asia and Russia lead the world, as America and Europe begin to flounder. Veena's Indian professors are also baffled by reports from underground American academicians. Apparently, a human-readable message emanated from the Big Bang. But nearly every American university has summarily ignored this "postcard from God." At her Arkansas college, Dorothy Underwood Multiversity, Veena observes America's intelligentsia and brightest youth. She meets hypocritical deans and professors, and she lives among the fine arts students, who blindly follow the professors. For her thesis, Veena's American professors order her to help find the "right-wing cabal" that threatens to end college admissions quotas. Meanwhile, she faces three stalkers and the threat of immediate deportation. *Dumb College* blends humor, rich characters, and intellectual intrigue in the story of Veena's fight to save Western literature, philosophy and art, and her search for the message from God.

Rather Dumb - Mike Walker 2005-02-27

Using *Rather* as a touchstone, Mike Walker rips into the arrogance and presumption of the news media—the elitist, agenda-driven mentality that allows its journalists and editors to ignore basic rules of journalism. Walker uses this short, blisteringly humorous book to personally kick *Rather* in the shins and also, more importantly, explain how real news is properly gathered and vetted, how it's properly written and reported, and why some journalists and editors think they're above such things. For years the mainstream media has stared down its collective nose at publications like the *National Enquirer*, but as Walker shows in scorching detail and irreverent humor, it is the gatekeepers and news elitists who need a trip to the woodshed, starting with Dan *Rather*.

World War Z - Max Brooks 2007-10-16

#1 NEW YORK TIMES BESTSELLER • “Prepare to be entranced by this addictively readable oral history of the great war between humans and zombies.”—*Entertainment Weekly* We survived the zombie apocalypse, but how many of us are still haunted by that terrible time? We have (temporarily?) defeated the living dead, but at what cost? Told in the haunting and riveting voices of the men and women who witnessed the horror firsthand, *World War Z* is the only record of the pandemic. The *Zombie War* came unthinkably close to eradicating humanity. Max Brooks, driven by the urgency of preserving the acid-etched first-hand experiences of the survivors, traveled across the United States of America and throughout the world, from decimated cities that once teemed with upwards of thirty million souls to the most remote and inhospitable areas of the planet. He recorded the testimony of men, women, and sometimes children who came face-to-face with the living, or at least the undead, hell of that dreadful time. *World War Z* is the result. Never before have we had access to a document that so powerfully conveys the depth of fear and horror, and also the ineradicable spirit of resistance, that gripped human society through the plague years. THE INSPIRATION FOR THE MAJOR MOTION PICTURE “Will spook you for real.”—*The New York Times Book Review* “Possesses more creativity and zip than entire crates of other new fiction titles. Think *Mad Max* meets *The Hot Zone*. . . . It's *Apocalypse Now*, pandemic-style. Creepy but fascinating.”—*USA Today* “Will grab you as tightly as a dead man's fist. A.”—*Entertainment Weekly*, EW Pick “Probably the most topical and literate scare since Orson Welles's *War of the Worlds* radio broadcast. . . . This is action-packed social-political satire with a global view.”—*Dallas Morning News*

How the News Makes Us Dumb - C. John Sommerville 2009-09-20

We who live at the end of the twentieth century are better informed—and more quickly informed—than any people in history. So why do we also seem more confused, divided and foolish than ever before? Some pundits criticize the news media for political bias. Other analysts worry that up-to-the-minute news reports on radio and television oversimplify complex realities. Still more critics point out that today's reporters can't possibly be experts on the wide variety of subjects they cover. Historian C. John Sommerville thinks the problem with news is more basic. Focusing his critique on the news at its best, he concludes that even at its best it is beyond repair. Sommerville argues that news began to make us dumber when we insisted on having it daily. Now millions of column inches and airtime hours must be filled with information—every day, every hour, every minute. The news, Sommerville says, becomes the driving force for much of our public culture. News schedules turn politics into a perpetual campaign. News packaging influences the timing, content and perception of government initiatives. News frenzies make a superstition out of scientific and medical research. News polls and statistics create opinion as much as they gauge it. Lost in the tidal wave of information is our ability to discern truly significant news—and our ability to recognize and participate in true community. This eye-opening book is for everyone dissatisfied with the state of the news media, but especially for those who think the news really informs them about and connects them with the real world. Read it and you may never again know the tyranny of the daily newspaper or the nightly news broadcast.

Dumb Beasts and Dead Philosophers - Catherine Osborne 2007-01-25

Animal rights do not feature explicitly in ancient thought. Indeed the notion of natural rights in general is not obviously present in the classical world. Plato and Aristotle are typically read as racist and elitist thinkers who barely recognise the humanity of their fellow humans. Surely they would be the last to show up as models of the humane view of other kinds? In this unusual philosophy book, Catherine Osborne asks the reader to think again. She shows that Plato's views on reincarnation and Aristotle's views on the souls of plants and animals reveal a continuous thread of life in which humans are not morally superior to beasts; Greek tragedy turns up thoughts that mirror the claims of rights activists when they speak for the voiceless; the *Desert Fathers* teach us to admire the natural perceptiveness of animals rather than the corrupt ways of urban man; the long tradition of arguments for vegetarianism in antiquity highlights how mankind's abuse of other animals is the more offensive the more it is for indulgent ends. What, then, is the humane attitude, and why is it better? How does the humane differ from the sentimental? Is there a truth about how we should treat animals? By reflecting on the work of the ancient poets and philosophers, Osborne argues, we can see when and how we lost touch with the natural intelligence of dumb animals.

You Are Now Less Dumb - David McRaney 2013-07-30

The author of the bestselling *You Are Not So Smart* shares more discoveries about self-delusion and irrational thinking, and gives readers a fighting chance at outsmarting their not-so-smart brains. David McRaney's first book, *You Are Not So Smart*, evolved from his wildly popular blog of the same name. A mix of popular psychology and trivia, McRaney's insights have struck a chord with thousands, and his blog--and now podcasts and videos--have become an Internet phenomenon. Like *You Are Not So Smart*, *You Are Now Less Dumb* is grounded in the idea that we all believe ourselves to be objective observers of reality--except we're not. But that's okay, because our delusions keep us sane. Expanding on this premise, McRaney provides eye-opening analyses of fifteen more ways we fool ourselves every day, including: The Misattribution of Arousal (Environmental factors have a greater affect on our emotional arousal than the person right in front of us) Sunk Cost Fallacy (We will engage in something we don't enjoy just to make the time or money already invested "worth it") Deindividuation (Despite our best intentions, we practically

disappear when subsumed by a mob mentality) McRaney also reveals the true price of happiness, why Benjamin Franklin was such a badass, and how to avoid falling for our own lies. This smart and highly entertaining book will be wowing readers for years to come.
