Custodians of the Internet - Tarleton Gillespie 2018-06-26

A revealing and gripping investigation into how social media platforms police what we post online—and the large societal impact of these decisions Most users want their Twitter feed, Facebook page, and YouTube comments to be free of harassment and porn. Whether faced with “fake news” or livestreamed violence, “content moderators”—who censor or promote user†posted content—have never been more important. This is especially true when the tools that social media platforms use to curb trolling, ban hate speech, and censor pornography can also silence the speech you need to hear. In this revealing and nuanced exploration, award†winning sociologist and cultural observer Tarleton Gillespie provides an overview of current social media practices and explains the underlying rationales for how, when, and why these policies are enforced. In doing so, Gillespie highlights that content moderation receives too little public scrutiny even as it is shapes social norms and creates consequences for public discourse, cultural production, and the fabric of society. Based on interviews with content moderators, creators, and consumers, this accessible, timely book is a must†read for anyone who’s ever clicked “like” or “retweet.”

Creating A Safe harbor -

Chasing Shadows - Lynn Austin 2021-06-08

For fans of bestselling WWII fiction comes a powerful novel from Lynn Austin about three women whose lives are instantly changed when the Nazis invade the neutral Netherlands, forcing each into a complicated dance of choice and consequence. Lena is a wife and mother who farms alongside her husband in the tranquil countryside. Her faith has always been her compass, but can she remain steadfast when the questions grow increasingly complex and the answers could mean the difference between life and death?

Lenas daughter Ans has recently moved to the bustling city of Leiden, filled with romantic notions of a new job and a young Dutch police officer. But when she is drawn into Resistance work, her idealism collides with the dangerous reality that comes with fighting the enemy. Miriam is a young Jewish violinist who immigrated for the safety she thought Holland would offer. She finds love in her new country, but as her family settles in Leiden, the events that follow will test them in ways she could never have imagined. The Nazi invasion propels these women onto paths that cross in unexpected, sometimes-heartbreaking ways. Yet the story that unfolds illuminates the surprising endurance of the human spirit and the power of faith and love to carry us through.

The Eleventh Day - Anthony Summers 2012-08-14

FINALIST FOR THE PULITZER PRIZE For most living Americans, September 11, 2001, is the darkest date in the nation’s history. But what exactly happened on 9/11? Could it have been prevented? And what remains unresolved? Here is the first panoramic, authoritative account of that tragic day—from the first brutal actions of the hijackers to our government’s flawed response; from the untruths told afterward by U.S. officials to the “elephant in the room” of the 9/11 Commission’s report—the clues that point to foreign involvement. New York Times bestselling authors Anthony Summers and Robbyn Swan write with access to thousands of recently released official documents, raw transcripts, fresh interviews, and the perspective that can come only from a decade of research and evaluation. Riveting, revelatory, and thoroughly sourced, *The Eleventh Day* is updated for this edition—with new reporting on a development that the former cochairman of Congress’s 9/11 probe calls the most important in years. This is the essential one-volume work, required reading for us all. “Essential.”—*The Wall Street Journal* “Meticulous, comprehensive . . . an extraordinary synthesis.”—John Farmer, 9/11 Commission senior counsel “This wide-angle look . . . examines the personalities behind the terror plot, U.S. intelligence blunders, the toxic environmental impact on first responders, the march to war, [and] gray areas in the 9/11 Commission Report.”—*The Washington Post* “The best available general account of 9/11—soberly written, judiciously weighed, meticulously sourced.”—*The Sunday Times*

Fall and Rise - Mitchell Zuckoff 2019-04-30

“Better and more comprehensive than any prior account. . . . Those of us who lived through those days will find the book cathartic; those rising generations who were too young to remember 9/11, or who weren’t yet born, will find it revelatory.” — John Farmer, senior counsel to the 9/11 Commission and author of *The Ground Truth* “With his rigorous research and moral clarity, Mitchell Zuckoff has provided us with an invaluable service. He has deepened our understanding of what happened on 9/11 and recorded the voices of the victims and the survivors. What’s more, he has ensured that we never forget.” —David Grann, #1 New York Times bestselling author of *Killers of the Flower Moon* Years in the making, this spellbinding,

heartbreaking, and ultimately uplifting narrative is an unforgettable portrait of 9/11. This is a 9/11 book like no other. Masterfully weaving together multiple strands of the events in New York, at the Pentagon, and in Shanksville, Pennsylvania, *Fall and Rise* is a mesmerizing, minute-by-minute account of that terrible day. In the days and months after 9/11, Mitchell Zuckoff, then a reporter for the Boston Globe, wrote about the attacks, the victims, and their families. After further years of meticulous reporting, Zuckoff has filled *Fall and Rise* with voices of the lost and the saved. The result is an utterly gripping book, filled with intimate stories of people most affected by the events of that sunny Tuesday in September: an out-of-work actor stuck in an elevator in the North Tower of the World Trade Center; the heroes aboard Flight 93 deciding to take action; a veteran trapped in the inferno in the Pentagon; the fire chief among the first on the scene in sleepy Shanksville; a team of firefighters racing to save an injured woman and themselves; and the men, women, and children flying across country to see loved ones or for work who suddenly faced terrorists bent on murder. *Fall and Rise* will open new avenues of understanding for everyone who thinks they know the story of 9/11, bringing to life—and in some cases, bringing back to life—the extraordinary ordinary people who experienced the worst day in modern American history. Destined to be a classic, *Fall and Rise* will move, shock, inspire, and fill hearts with love and admiration for the human spirit as it triumphs in the face of horrifying events.

VB6 - Mark Bittman 2013-04-30

If you're one of the millions who have thought of trying a vegan diet but fear it's too monotonous or unfamiliar, VB6 will introduce a flexible way of eating that you can really live with for life. Six years ago, an overweight, pre-diabetic Mark Bittman faced a medical directive: adopt a vegan diet or go on medication. He was not a fan of a lifelong regimen of pills, but as a food writer he lived—and worked—to eat. So neither choice was appealing. His solution was a deal with himself. He would become a “flexitarian.” He adopted a diet heavy in vegetables, fruits, and grains by following a healthy vegan diet (no meat, dairy, or processed foods) all day. After 6:00 p.m. he'd eat however he wanted, though mostly in moderation. Beyond that, his plan involved no gimmicks, scales, calorie counting, or point systems. And there were no so-called forbidden foods—he ate mostly home-cooked meals that were as varied and satisfying as they were delicious. He called this plan Vegan Before 6:00 (VB6 for short), and the results were swift and impressive. Best of all, they proved to be lasting and sustainable over the long haul. Bittman lost 35 pounds and saw all of his blood numbers move in the right direction. Using extensive scientific evidence to support his plan, the acclaimed cookbook author and food policy columnist shows why his VB6 approach succeeds when so many other regimens not only fail, but can actually lead to unwanted weight gain. He then provides all the necessary tools for making the switch to a flexitarian diet: lists for stocking the pantry, strategies for eating away from home in a variety of situations, pointers for making cooking on a daily basis both convenient and enjoyable, and a complete 28-day eating plan showing VB6 in action. Finally, Bittman provides more than 60 recipes for vegan breakfasts, lunches, and snacks, as well as non-vegan dinners that embrace the spirit of a vegetable- and grain-forward diet.

Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing

feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. Recoding World Literature - B. Venkat Mani 2016-12-01

Winner, 2018 Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures, Modern Language Association Winner, 2018 German Studies Association DAAD Book Prize in Germanistik and Cultural Studies. From the current vantage point of the transformation of books and libraries, B. Venkat Mani presents a historical account of world literature. By locating translation, publication, and circulation along routes of "bibliomigrancy"—the physical and virtual movement of books—Mani narrates how world literature is coded and recoded as literary works find new homes on faraway bookshelves. Mani argues that the proliferation of world literature in a society is the function of a nation's relationship with print culture—a Faustian pact with books. Moving from early Orientalist collections, to the Nazi magazine Weltliteratur, to the European Digital Library, Mani reveals the political foundations for a history of world literature that is at once a philosophical ideal, a process of exchange, a mode of reading, and a system of classification. Shifting current scholarship's focus from the academic to the general reader, from the university to the public sphere, Recoding World Literature argues that world literature is culturally determined, historically conditioned, and politically charged.

Big Billion Startup: The Untold Flipkart Story - Mihir Dalal 2019-10-06

The definitive account of India's biggest startup that redefined e-commerce, entrepreneurship and the way we shop and live. IIT graduates Sachin Bansal and Binny Bansal founded out of a Bangalore apartment what would become India's biggest e-commerce startup. Established in October 2007, Flipkart began as an online bookstore and soon came to be known for its 'customer obsession'. As the startup's reputation grew, so did its value, with venture capitalists in India and abroad lining up to invest heavily in the company that stood for bold ambition, unabashed consumerism and the virtues of technology. Investigative journalist Mihir Dalal recounts the astounding story of how the Bansals built Flipkart into a multi-billion-dollar powerhouse in the span of a few years and made internet entrepreneurship a desirable occupation. But it is also a story of big money, power and hubris, as both business and interpersonal complexities weakened the founders' control over their creation and forced them to sell out to a retailer whose dominance they had once dreamt of emulating. Flipkart's auction involved some of the corporate world's biggest names, from Jeff Bezos, Satya Nadella, Sundar Pichai to Masayoshi Son and Doug McMillon, an ironic testimony to the strength of what the Bansals had forged. Based on extraordinary research, extensive interviews and deep access to key characters in the Flipkart story, Big Billion Startup is the riveting and revealing account of

how Sachin and Binny Bansal built and sold India's largest internet company.

On That Day - William M. Arkin 2021-08-17

After two decades, numerous reports, memoirs and commissions, the definitive story of how the US government struggled to react to the attacks on 9/11 is yet to be told -- until now. 9/11 was a unique challenge to the USA, a threat from a "rogue actor" that caught the nation utterly unprepared. William Arkin, veteran military and security analyst and commentator, has reconstructed the minute-by-minute narrative of the day as the nation's airlines, air control systems, military, air force and central government went from a state of absolute confusion and stunned disbelief until they rallied and began to coordinate the largest shut-down of the US from all outsiders. It was a day of absolute heroism and terrible errors, of heartbreaking final messages and incoherent orders, of misunderstandings and brilliant improvisations. It will change the way you see some of the protagonists of that exceptional, terrible day. Above all, revisiting the intimate details of the day allows Arkin to ask and answer some vital questions: What did we learn from 9/11? And are we any more likely to be ready if something like it ever happened again?

Probability - Jim Pitman 2012-12-06

This is a text for a one-quarter or one-semester course in probability, aimed at students who have done a year of calculus. The book is organised so a student can learn the fundamental ideas of probability from the first three chapters without reliance on calculus. Later chapters develop these ideas further using calculus tools. The book contains more than the usual number of examples worked out in detail. The most valuable thing for students to learn from a course like this is how to pick up a probability problem in a new setting and relate it to the standard body of theory. The more they see this happen in class, and the more they do it themselves in exercises, the better. The style of the text is deliberately informal. My experience is that students learn more from intuitive explanations, diagrams, and examples than they do from theorems and proofs. So the emphasis is on problem solving rather than theory.

Michael Tippett - Oliver Soden 2019-04-18

'A delight to read' Philip Pullman 'Essential reading ... a genuine landmark publication' Tom Service A BBC Radio 4 'Book of the Week' The music of the British composer Michael Tippett - including the oratorio *A Child of Our Time*, five operas, and four symphonies - is among the most visionary of the twentieth century. But little has been written about his extraordinary life. In this long-awaited first biography, Oliver Soden weaves a century-spanning narrative of epic scope and penetrating insight. Soden has discovered troves of unpublished letters and manuscripts, and recorded moving interviews with Tippett's friends and colleagues. He paints a portrait of a powerful intellect and infectious personality: charming, stubborn, and great fun. But he also uncovers the sorrows and secrets that Tippett stowed away beneath his cheerfulness, not least the darker reaches of some tempestuous and often tragic love affairs. Soden's achievement is to have enriched our understanding not only of Tippett but of his times. Figures such as T.S. Eliot, E.M. Forster, Barbara Hepworth, and W.H. Auden jostle in the cast list. An Edwardian world of gaslight and empire cedes to turmoil and warfare; one startling revelation is the extent of Tippett's involvement in the fiery left-wing politics of the 1930s. The narrative roves from the mining villages of the north, blighted by unemployment, to a cell at Wormwood Scrubs, where Tippett was imprisoned as a conscientious objector. Later chapters uncover his operas' game-changing attitudes to gay and civil rights, against a backdrop of the Cold War and the Space Race. And singing from the page comes the music, through which Soden charts an exquisitely written course, offering lucid readings of Tippett's most famous works while resuscitating forgotten masterpieces. The result is a landmark in the study of twentieth-century culture, simultaneously an astonishing feat of scholarship and a story as enthralling as in any great novel.
