Wildest Hearts - Jayne Ann Krentz 2004-02-01

Annie Lyncroft knew her scheme was outrageous. She'd come to the elegant penthouse to meet Oliver Rain, the richest and possibly the most dangerous man in the Pacific Northwest. Annie needed this sensual, secretive corporate maverick for what she was about to propose. Marriage! With her brother Danny missing after a mysterious plane crash, Annie is struggling to protect his hot electronics company from the sharks who think he's not coming back. But fanciful, ethical Annie -- who usually runs a bizarre bric-a-brac shop knows Danny's alive, and she's determined to keep his company safe by putting his biggest investor at the helm. When Oliver actually says yes to the marriage of convenience, Annie dreamily envisions a few platonic weeks of helping him become a sensitive New Age guy. Oliver has a different plan; his cold, gorgeous eyes have been watching Annie, and he sees his chance to seduce the beautiful schemer. Love is the wild card destined to teach these two strong-willed opposites a lesson: icy control might run the business world, but all hell is about to break loose in the passionate territory of the heart.

Karlology - Karl Pilkington 2008-11-17

Karl Pilkington's third book, follow-up to bestselling *The World of Karl Pilkington* and *Happyslapped by a Jellyfish*, is a voyage through some of the most curious facts and fictions about our world. Drawing on what little he learned during his days of education, Karl explores the world of knowledge through a school curriculum, with chapters devoted to biology, history, art, and English, among others, each topic approached with Karl's inimitable combination of innocent wonder and down-to-earth wisdom. Full color throughout, the book is illustrated with Karl's hand-drawn cartoons and comic strips and it features e-mail contributions from a host of celebrities and experts who Karl has quizzed to further his knowledge. Read Karl's blog at <http://www.karlology.co.uk>

A Secondhand Lie - Pamela Crane 2018-04-01

Sometimes you know things you're not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon's preteen sister, Alexis, is murdered in their home, plunging Landon's life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon's journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. A short story mystery perfect for fans of Robert Dugoni's *Third Watch* and Dean Koontz's *The Neighbor*. Read as a standalone or as the companion book to *A Secondhand Life*.

Addressing Challenging Moments in Psychotherapy - Jerome S. Gans 2021-09-30

"This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now.

Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

Switching Power Supply Design & Optimization - Sanjaya Maniktala 2005

This is a rigorous, carefully explained and motivated "beginner's bible" to power supply design. Between dense, mathematical textbooks on power electronics and tiny power supply "cookbooks" there exists no practical tutorial on the hazards of contemporary power supply design. Our Pressman book, the 800 lb gorilla in the field, is both mathematically dense and 7 years old. This new book, detailing cutting edge thermal management techniques, grouping key design equations in a special reference section, and containing a concise Design FAQ, will serve both as an invaluable tutorial and quick reference.

Erik Madigan Heck - Erik Heck 2017-03-28

The influence of art, notably painting, is a thread that runs through the history of fashion photography. From Edward Steichen, Irving Penn, and Horst P. Horst to Guy Bourdin and Sarah Moon, the great fashion photographers have often positioned their work as art. Erik Madigan Heck's work explores this intersection of fashion, painting, and classical portraiture. Erik Madigan Heck: *Old Future* presents more than 100 photographs in a flowing, chromatic sequence. The photographs featured--published in the *New York Times Magazine*, *New York Harper's Bazaar UK*, *Porter*, and more--show his range and vivid use of color, and his ability to produce evocative and seductive images that are simultaneously timeless and futuristic. With essays by Susan Bright and Justine Picardie that look at Heck's place within the realms of both art photography and fashion, this book is the essential introduction to a future master of fashion photography.
