The Vacuum Cleaner - Carroll Gantz 2012-09-21

House cleaning has been an innate human activity forever but only since the early 19th century have mechanical devices replaced the physical labor (performed mostly by women). Mechanical carpet sweepers were replaced by manual suction cleaners, which in turn were replaced by electric vacuum cleaners in the early 20th century. Innovative inventors, who improved vacuum cleaners as electricity became commonly available, made these advances possible. Many early manufacturers failed, but some, such as Bissell, Hoover, Eureka and others, became household names as they competed for global dominance with improved features, performance and appearance. This book describes the fascinating people who made this possible, as well as the economic, cultural and technological contexts of their times. From obscure beginnings 200 years ago, vacuum cleaners have become an integral part of modern household culture.

Reinforcing Patriarchy - Chetna Bhatia

The life of a common Indian woman is full of struggles, dilemmas, pressures and conflicts. Family's pressure to plan kids, explanations for opting night shift jobs, scolding about going alone to eating places and movies, reservation of seats in public transport, reaching out to diet and cosmetic industries to attain size zero and ultra-fair faces to get her boyfriend's attention back. Where does 21st century Indian society stand on such issues? Also, what role does mass media, especially advertising plays in influencing public mindset about women? This work acknowledged the need of examining it with reference to a wider context of the hard core issues faced by women in their bedrooms, kitchens, offices, streets and living rooms. Therefore, a sincere effort was put in reaching out to the people and mapping their minds through a set of questions (hidden form) about the control over a woman's body, the concept of her beauty, aspects of her occupation and mobility, her role in decision-making and in division of labor in the households. The book goes one step ahead of the typical impact studies or analysis of stereotypes in advertisements. For those interested in women studies, the book contains facts about women's movement in India till 2016 and a complete list of issues affecting a woman from her bedroom to her workplace. Those interested in advertising and cultural studies can find a full-length discussion on basic aspects of advertising as a format and as an institution. For the scholars of media studies or sociology, the work contains self-constructed Likert scales and codes. Further, the research has attempted to directly compare the advertisements and society on common parameters. The study draws its basic concepts and critical perspective from the works of Richard W Polay, John Fiske, John Hartley, Daniel Schandler, Lewis Hedwig, Kamla Bhasin, Nivedita Menon, Naomi Wolf, Radha Kumar, Foucault, Erving Goffman and Laura Mulvey. The issue has been examined thoroughly in the light of contemporary events and factors which make it more relevant to the present stage of globalized Indian society.

Summary of Geoffrey Cain's Samsung Rising - Everest Media, 2022-04-30T22:59:00Z

Please note: This is a companion version & not the original book. Sample Book Insights: #1 On October 5, 2016, a flight attendant on a South Korean airline evacuated all the passengers and crew members after a man's new Galaxy Note 7 smartphone began smoking. The device had been exchanged two weeks before the flight. #2 The most disturbing part of this is that Klering's phone caught fire on Tuesday, one day before the Southwest flight, and Samsung knew about it and didn't say anything. #3 The crisis grew as customers continued to send in their faulty Galaxy Note 7s, and Samsung had no clear plan of action. Their reputation was falling apart, and they were completely oblivious to it. #4 I first settled in South Korea in September 2009. I lived there until the fall of 2016, between reporting stints in Vietnam and Cambodia. I was immediately fascinated by my new home.

The Rise and Fall of the House of Bo - John Garnaut 2012-11-08

The Rise and Fall of the House of Bo is a shocking and revelatory exposé of China's most controversial 'statesman' Bo Xilai, by journalist John Garnaut, available exclusively as a digital-only Penguin Special. When news of the murder trial of prominent Communist Party leader Bo Xilai's wife reached Western attention, it was apparent that, as with many events in the secretive upper echelons of Chinese politics, there was more to the story. Now, as the Party's 18th National Congress oversees the biggest leadership transition in decades, and installs the Bo family's long-time rival Xi Jinping as president, China's rulers are finding it increasingly difficult to keep their poisonous internal divisions behind closed doors. Bo Xilai's breathtaking fall from grace is an extraordinary tale of excess, murder, defection, political purges and ideological clashes going back to Mao himself, as the princeling sons of the revolutionary heroes ascend to control of the Party. China watcher John Garnaut examines how Bo's stellar rise through the ranks troubled his more reformist peers, as he revived anti-'capitalist roader' sentiment, even while his family and associates enjoyed the more open economy's opportunities. Amid fears his imminent elevation to the powerful Standing Committee was leading China towards another destructive Cultural Revolution, have his opponents seized their chance to destroy Bo and what he stood for? The trigger was his wife Gu Kailai's apparently paranoid murder of an English family friend, which exposed the corruption and brutality of Bo's outwardly successful administration of the massive city of Chongqing. It also led to the one of the highest-level attempted defections in Communist China's history when Bo's right-hand man, police chief Wang Lijun, tried to escape the ruins of his sponsor's reputation. Garnaut explains how this incredible glimpse into the very personal power struggles within the CCP exposes the myth of the unified one-party state. With China approaching super-power status, today's leadership shuffle may set the tone for international relations for decades. Here, Garnaut reveals a particularly Chinese spin on the old adage that the personal is political. 'His insight is unique and well applied to this extraordinary, intergenerational set of events that Hollywood couldn't dream up if it tried' ABC Sydney John Garnaut is China correspondent for the Sydney Morning Herald and The Age, in the Fairfax Media stable, and also writes for Foreign Policy magazine. He joined Fairfax in 2002 as an economics journalist after working as a commercial lawyer. His work on China has been recognised with several awards, including the 2009 Walkley Award for Scoop of the Year, for reporting the detention of Australian Rio Tinto executive Stern Hu. John lived in Beijing for two years in the 1980s, while his father was posted as the Australian ambassador, and returned there with his wife and children in 2007.

Connect! - Simon Lancaster 2022-06-09

Why do some people radiate energy when they speak whilst others fizzle out before they've even begun? How do some writers make our hearts race whilst others make us feel like closing the book? Why are some work colleagues seemingly more influential, or funnier, than others? Top speechwriter Simon Lancaster explains that the secret of brilliant communication is all about making connections. Whether in speech or in writing, at a networking event or in an email, at work or at home, the best communicators find ways of connecting with their audiences. More than that, they are able to connect the personal with the universal, the past with the present, the abstract with the everyday, the visual with the verbal, the moral with the mundane. Like hot-wiring a car, connections are able to bypass logic and access our deepest instincts and emotions, generating an instant neurological reaction. Connect reveals the secret art of making connections in eleven engaging, revelatory chapters. It blends cutting-edge neuroscience with ancient rhetoric and wonderfully shareable examples from popular culture; and it incorporates exercises to help work your own creative muscles, so you can become quicker at making connections and finding your own stories, metaphors, analogies and jokes. If you want more sparkle when you speak, more power when you present, more wow when you write, then this book will show you the skills to connect with anyone about anything, anytime and anywhere.

Better Living Through Criticism - A. O. Scott 2016-02-09

The New York Times film critic shows why we need criticism now more than ever Few could explain, let alone seek out, a career in criticism. Yet what A.O. Scott shows in *Better Living Through Criticism* is that we are, in fact, all critics: because critical thinking informs almost every aspect of artistic creation, of civil action, of interpersonal life. With penetrating insight and warm humor, Scott shows that while individual critics--himself included--can make mistakes and find flaws where they shouldn't, criticism as a discipline is one of the noblest, most creative, and urgent activities of modern existence. Using his own film criticism as a starting point--everything from his infamous dismissal of the international blockbuster *The Avengers* to his intense affection for Pixar's animated *Ratatouille*--Scott expands outward, easily guiding readers through the complexities of Rilke and Shelley, the origins of Chuck Berry and the Rolling Stones, the power of Marina Abramovich and 'Ode on a Grecian Urn.' Drawing on the long tradition of criticism from Aristotle to Susan Sontag, Scott shows that real criticism was and always will be the breath of fresh air that allows true creativity to thrive. "The time for criticism is always now," Scott explains, "because the imperative to think clearly, to insist on the necessary balance of reason and passion, never goes away."

Plus, it has an underlying message about working together to get things done.

Black Theology—Essays on Global Perspectives - Dwight N. Hopkins 2017-06-15

Since its start in 1966, black liberation theology in the United States has continually engaged international developments with Africa and the entire world. But after Nelson Mandela was released from prison in February 1990, there has been an almost twenty-year break in books on black theology and international affairs. Black Theology--Essays on Global Perspectives bridges that post-1990 gap and makes a vital contact with Africa again. This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast-paced, worldwide contacts. In other words, in the specificity of the genealogy of black theology, we need to reforge ties with Africa. This claim is based on tradition. And in the generality of the larger worldwide intertwining of technologies and economics, we need a new type of black theological leadership for the twenty-first century. This claim is based on today's international challenges. The essays in this book draw on tradition and point forward in the midst of today's worldwide challenges and favorable possibilities, given the closeness of all nations and the varieties of cultures.

Wearable Solar Cell Systems - Denise Wilson 2019-11-25

Smartwatch? Fitness tracker? Portable ECG? Smartphone? Posture monitor? Hearing aid? MP3 player? E-reader? Wireless headset? Hiking watch? Gaming headset? Sleep monitor? Laptop computer? Tablet?

Indeed, a dizzying array of portable and wearable electronic devices is available to the modern consumer. Not surprisingly, as the number of devices an individual chooses to wear or carry increases so does the energy required to power those devices. Judging by the increasing popularity of portable power banks, waiting to recharge many of these devices using standard wall outlets is no longer a standard practice. Wearable Solar Cell Systems looks at the possibilities for supporting the energy demand of these devices without the need to return to the dreaded wall outlet for recharging. While crystalline silicon dominates world markets, second- or third-generation solar cell technologies may be more suitable to wearable systems. Array size, architecture, and management must also be chosen to best serve portable and wearable devices and harvest light energy from different light sources under a broad range of input conditions. This book is intended to serve a wide audience from students who desire a basic introduction to solar (photovoltaic) cell technology to professionals seeking a holistic picture of wearable solar cells and systems.

Hit Refresh - Satya Nadella 2017-09-26

"At the core, Hit Refresh, is about us humans and the unique quality we call empathy, which will become ever more valuable in a world where the torrent of technology will disrupt the status quo like never before."

- Satya Nadella from Hit Refresh "Satya has charted a course for making the most of the opportunities created by technology while also facing up to the hard questions." - Bill Gates from the Foreword of Hit Refresh The New York Times bestseller Hit Refresh is about individual change, about the transformation happening inside of Microsoft and the technology that will soon impact all of our lives—the arrival of the most exciting and disruptive wave of technology humankind has experienced: artificial intelligence, mixed reality, and quantum computing. It's about how people, organizations, and societies can and must transform and "hit refresh" in their persistent quest for new energy, new ideas, and continued relevance and renewal. Microsoft's CEO tells the inside story of the company's continuing transformation, tracing his own personal journey from a childhood in India to leading some of the most significant technological changes in the digital era. Satya Nadella explores a fascinating childhood before immigrating to the U.S. and how he learned to lead along the way. He then shares his meditations as a sitting CEO—one who is mostly unknown following the brainy Bill Gates and energetic Steve Ballmer. He tells the inside story of how a company rediscovered its soul—transforming everything from culture to their fiercely competitive

landscape and industry partnerships. As much a humanist as engineer and executive, Nadella concludes with his vision for the coming wave of technology and by exploring the potential impact to society and delivering call to action for world leaders. "Ideas excite me," Nadella explains. "Empathy grounds and centers me." Hit Refresh is a set of reflections, meditations, and recommendations presented as algorithms from a principled, deliberative leader searching for improvement—for himself, for a storied company, and for society.

Black Run - Antonio Manzini 2015-04-28

Already an international hit, a sly, sizzling mystery—the first in a sensational crime series—set in the Italian Alps, reminiscent of the works of Andrea Camilleri, D. A. Mishani, Donna Leon, and Henning Mankell. Getting into serious trouble with the wrong people, deputy prefect of police Rocco Schiavone is exiled to Aosta, a small, touristy alpine town far from his beloved Rome. The sophisticated and crotchety Roman despises mountains, snow, and the provincial locals as much as he disdains his superiors and their petty rules. But he loves solving crimes. When a mangled body has been discovered on a ski run above Champoluc, Rocco immediately faces his first challenge—identifying the victim, a complex procedure complicated by his ignorance of the customs, dialect, and history of his new home. Proud and undaunted, Rocco makes his way among the ski runs, mountain huts, and aerial tramways, meeting ski instructors, Alpine guides, the hardworking, enigmatic folk of Aosta, and a few beautiful locals eager to give him a warm welcome. It won't be easy, this mountain life, especially with a corpse or two in the mix. But then there's nothing that makes Rocco feel more at home than an investigation. An insightful observer of human nature, Antonio Manzini writes with sly humor and a dash of irony, and introduces an irresistible hero—a fascinating blend of swagger, machismo, and vulnerability—in a colorful and atmospheric crime mystery series that is European crime fiction at its best.

Seeking the Truth from Mobile Evidence - John Bair 2017-11-17

Seeking the Truth from Mobile Evidence: Basic Fundamentals, Intermediate and Advanced Overview of Current Mobile Forensic Investigations will assist those who have never collected mobile evidence and augment the work of professionals who are not currently performing advanced destructive techniques. This book is intended for any professional that is interested in pursuing work that involves mobile forensics, and is designed around the outcomes of criminal investigations that involve mobile digital evidence. Author John Bair brings to life the techniques and concepts that can assist those in the private or corporate sector. Mobile devices have always been very dynamic in nature. They have also become an integral part of our lives, and often times, a digital representation of where we are, who we communicate with and what we document around us. Because they constantly change features, allow user enabled security, and or encryption, those employed with extracting user data are often overwhelmed with the process. This book presents a complete guide to mobile device forensics, written in an easy to understand format. Provides readers with basic, intermediate, and advanced mobile forensic concepts and methodology Thirty overall chapters which include such topics as, preventing evidence contamination, triaging devices, troubleshooting, report writing, physical memory and encoding, date and time stamps, decoding Multi-Media-Messages, decoding unsupported application data, advanced validation, water damaged phones, Joint Test Action Group (JTAG), Thermal and Non-Thermal chip removal, BGA cleaning and imaging, In-System-Programming (ISP), and more Popular JTAG boxes - Z3X and RIFF/RIFF2 are expanded on in detail Readers have access to the companion guide which includes additional image examples, and other useful materials

The Offshore Drilling Industry and Rig Construction in the Gulf of Mexico - Mark J Kaiser
2013-08-23

Jackups, semisubmersibles and drillships are the marine vessels used to drill offshore wells and are referred to collectively as mobile offshore drilling units (MODUs). MODUs are supplied through newbuild construction and operate throughout the world in highly competitive regional markets. The Offshore Drilling Industry and Rig Construction Market in the Gulf of Mexico examines the global MODU service and construction industry and describes the economic impacts of rig construction in the United States. The industrial organization and major players in the contract drilling and construction markets are described and categorized. Dayrates in the contract drilling market are evaluated and hypotheses regarding dayrate factors are tested. Models of contractor decision-making are developed, including a net-present value model of newbuilding investment and stacking decisions, and market capitalization models are derived. Jackup construction shipyards and processes are reviewed along with estimates of labor, equipment, and material cost in U.S. construction. Derivation of newbuild and replacement cost functions completes the treatise. The comprehensive and authoritative coverage of The Offshore Drilling Industry and Rig Construction Market in the Gulf of Mexico makes it an ideal reference for engineers, industry professionals, policy analysts, government regulators, academics and other readers wanting to learn more about this important and fascinating industry.

Mixed Messages Journal - Anonyme 2016-10

Mix it up with this delightful take on the classic cassette tape Mixed Messages Journal evokes the nostalgic spirit of everyone who ever spent painstaking hours devising the perfect mixtape. This gorgeously-designed blank journal mimics the look and feel of a classic cassette tape: die-cut tape spools and an embossed design on the cover, a sticker sheet (to write the Side A and Side B "names" on your journal), a stained book block, and a black ribbon marker (to evoke the dreaded unspooled tape of a ruined mixtape).

Why Do They Make Things so Complicated? - Lisa Monika Anna Mützel 2017-05-05

In the past 50 years, consumers' buying situations have not become easier. Consumers remain easily overwrought by complex buying situations that involve buying complex products or services, such as laptops or insurances. In such situations, consumers find it difficult to make a decision and must spend high levels of cognitive effort on it. Prior consumer research has addressed the complexity of buying situations in several research streams such as in choice complexity or product complexity literature. However, previous researchers have not reached consensus on what constitutes the complexity of a buying situation. Furthermore, they have mostly concentrated on cognitive constructs and emotional constructs have been rather unexplored. To close these research gaps, this dissertation provides an in-depth conceptualization of complex buying situations by developing a comprehensive reference framework. Furthermore, this dissertation differs from prior research by examining in detail negative emotional responses to complexity (NERCO). A reliable and valid NERCO scale is developed that consists of two factors, emotional resignation and fear of post-purchase dissonance. An experiment investigates the influence of two input variables of the reference framework (1. the number of alternatives in the consumer's price class and 2. the perceived expertise of the salesperson who provides a recommendation in a buying situation) on perceived choice complexity and on NERCO. This dissertation paves the way for numerous directions for future research on the complexity of buying situations by providing theoretical fundamentals in the form of a detailed conceptualization and by precisely defining the research gaps.

The Chinese Kafka Part 2 - Mark Obama Ndesandjo 2020-07-28

This book is the second of a series of essays inspired by the poems of the Tang Poet Li Shangyin (813-858

AD), and includes many insightful observations on the author's personal multicultural journey through America, Asia and Africa. The bilingual book also includes the author's beautiful Chinese calligraphy and a groundbreaking analysis on the relevance of poetry to the existential dislocations of our modern era. It is an excellent resource for students of English and Chinese, as well as those interested in exploring other cultures. Li Shangyin is one of the most fascinating of poets and this book includes historical background on the poet as well as introductory and explanatory notes by the translator. For over 1200 years, scholars have attempted to understand, let alone translate, Li Shangyin's poems. At least four different schools of thought have developed. Firstly, his poems are reflections on political patrons and a failed career. Secondly, they are thinly veiled political satires of the Court and political factions. Thirdly, they are stories of actual affairs with Court ladies and Taoist priestesses. Finally, they are admirable vehicles of mystery and beauty. My interpretations include elements of all the above, but are also a synthesis of sentiments - the poet's (as Mark sees him) and his own, of which music is a core part. This is particularly appropriate with Li Shangyin. His poetry is a labyrinth of passionate images, almost musical in sound and sequencing. They are at once ebullient, sad, loving, hateful, spiteful, sneering, and religious - a cornucopia of musical words that sing across the ages.

Wärtsilä Encyclopedia of Ship Technology - 2015

Developmental Mindset - Elizabeth Thurbon 2016-03-31

The Asian financial crisis of 1997-1998 was supposed to be the death knell for the developmental state. The International Monetary Fund supplied emergency funds for shattered economies but demanded that states liberalize financial markets and withdraw from direct involvement in the economy. Financial liberalization was meant to spell the end of strategic industry policy and the state-directed "policy lending" it involved. Yet, largely unremarked by analysts, South Korea has since seen a striking revival of financial activism. Policy lending by state-owned development banks has returned the state to the core of the financial system. Korean development banks now account for one quarter of all loans and take the lead in providing low-cost finance to local manufacturing firms in strategic industries. Elizabeth Thurbon argues that an ideational analysis can help explain this renewed financial activism. She demonstrates the presence of a "developmental mindset" on the part of political leaders and policy elites in Korea. This mindset involves shared ways of thinking about the purpose of finance and its relationship to the productive economy. The developmental mindset has a long history in Korea but is subject to the vicissitudes of political and economic circumstances. Thurbon traces the structural, institutional, political, and ideational factors that have strengthened and at times weakened the developmental consensus, culminating in the revival of financial activism in Korea. In doing so, Thurbon offers a novel defense of the developmental state idea and a new framework for investigating the emergence and evolution of developmental states. She also canvasses the implications of the Korean experience for wider debates concerning the future of financial activism in an era of financialization, energy insecurity, and climate change.

The Employer Brand - Simon Barrow 2011-01-19

Levels of 'employer brand awareness' are rising fast across Europe, North America and Asia-Pacific, as leading companies realise that skilled, motivated employees are as vital to their commercial success as profitable customers and apply the principles of branding to their own organization. Starting with a review of the pressures which have generated current interest in employer branding, this definitive book goes on to look at the historical roots of brand management and the practical steps necessary to achieve employer brand management success - including the business case, research, positioning, implementation, management and measurement. Case studies of big-name employer brand stories include Tesco, Wal-Mart, British Airways and Prêt à Manger.
