Transformation in Higher Education - Nico Cloete 2006-07-08

The book presents the most comprehensive and

most thorough study of the developments in South African higher education and research after the first democratic elections of 1994, that is of post-Apartheid South African higher education. The benefits to the reader are that he/she will get a detailed insight into the new (i.e. post-1994) South African higher education system. The large number of experienced authors and editors involved in the book guarantees that the reader will be introduced in the new SA higher education system from a large number of perspectives that are presented in a consistent and coherent way.

Outsmarting Apartheid - Daniel Whitman
2014-05-01

Inspiring oral history of the impact of cultural and educational exchange between South Africa and the United States during apartheid. For almost forty years, under the watchful eye of the apartheid regime, some three thousand South Africans participated in cultural and educational exchange with the United States. Exposure to

American democracy brought hope during a time when social and political change seemed unlikely. In the end the process silently triumphed over the resistance of authorities, and many of the individuals who participated in the program later participated in South Africa's first democratic elections, in 1994, and now occupy key positions in academia, the media, parliament, and the judiciary. In *Outsmarting Apartheid*, Daniel Whitman, former Program Development Officer at the US Embassy in Pretoria, interviews the South Africans and Americans who administered, advanced, and benefited from government-funded exchange. The result is a detailed account of the workings and effectiveness of the US Information Agency and a demonstration of the value of "soft power" in easing democratic transition in a troubled area. "Outsmarting Apartheid is a major contribution to the study of "soft diplomacy." It is a wonderful picture of how the public diplomacy section of an embassy works and the

positive impact it can have on advancing US interests. The detail of daily life under apartheid for South Africans of all races is fascinating and will become more important as memories of that period recede. □ □ John Campbell, author of *Nigeria: Dancing on the Brink*, Updated Edition □ This book fills an important void in the literature □ it provides great insight, from the point of view of actual participants, in the dismantling of apartheid and the construction of a postapartheid democratic system in South Africa. □ □ John Mukum Mbaku, author of *Corruption in Africa: Causes, Consequences, and Cleanups*

Reclaiming Education - James Tooley

2005-03-01

What is wrong with education? Why do educational reforms always miss their target? How can we create a better education system?

And what can we learn from other countries?

Reclaiming Education tackles the challenges facing education that really matter - the ones that academics often ignore, parents demand solution to and politicians need to confront.

Drawing on his global research, James Tooley shows that there is an alternative to poor quality and wasteful inefficiency in education, and that education can be radically transformed to guarantee freedom and higher standards.

"Tooley radically challenges any complacency we may have about education in the 21st century."

Sir Bob Salisbury "Tooley is an extremist: some of his ideas are outrageous!" Professor Geoffrey Walford, University of Oxford "This is truly a radical book. It should be read by everyone who thinks deeply about education." Sir Christopher Ball

The Global Education Industry - James Tooley
2001

James Tooley challenged the wisdom that private education fosters social and economic inequality. On the contrary, he found that the private sector, as well as being innovative, often provides creative social responsibility programmes, subsidised places and student loan schemes. Here, he provides an account private education in China.
