The Importance of Feeling English - Leonard Tennenhouse 2016-07-26

American literature is typically seen as something that inspired its own conception and

that sprang into being as a cultural offshoot of America's desire for national identity. But what of the vast precedent established by English literature, which was a major American import between 1750 and 1850? In *The Importance of Feeling English*, Leonard Tennenhouse revisits the landscape of early American literature and radically revises its features. Using the concept of transatlantic circulation, he shows how some of the first American authors--from poets such as Timothy Dwight and Philip Freneau to novelists like William Hill Brown and Charles Brockden Brown--applied their newfound perspective to pre-existing British literary models. These American "re-writings" would in turn inspire native British authors such as Jane Austen and Horace Walpole to reconsider their own ideas of subject, household, and nation. The enduring nature of these literary exchanges dramatically recasts early American literature as a literature of diaspora, Tennenhouse argues--and what made the settlers' writings distinctly and

indelibly American was precisely their insistence on reproducing Englishness, on making English identity portable and adaptable. Written in an incisive and illuminating style, *The Importance of Feeling English* reveals the complex roots of American literature, and shows how its transatlantic movement aided and abetted the modernization of Anglophone culture at large.

Literary Celebrity, Gender, and Victorian Authorship, 1850-1914 - Alexis Easley
2011-04-29

This study examines literary celebrity in Britain from 1850 to 1914. Through lively analysis of rare cultural materials, Easley demonstrates the crucial role of the celebrity author in the formation of British national identity. As Victorians toured the homes and haunts of

famous writers, they developed a sense of shared national heritage. At the same time, by reading sensational accounts of writers' lives, they were able to reconsider conventional gender roles and domestic arrangements. As women were featured in interviews and profiles, they were increasingly associated with the ephemerality of the popular press and were often excluded from emerging narratives of British literary history, which defined great literature as having a timeless appeal. Nevertheless, women writers were able to capitalize on celebrity media as a way of furthering their own careers and retelling history on their own terms. Press attention had a more positive effect on men's literary careers since they were expected to assume public identities; however, in some cases, media exposure had the effect of sensationalizing their lives, bodies, and careers. With the development of proto-feminist criticism and historiography, the life stories of male writers were increasingly

used to expose unhealthy domestic relationships and imagine ideal forms of British masculinity. The first section of *Literary Celebrity* explores the practice of literary tourism in Victorian Britain, focusing specifically on the homes and haunts of Charles Dickens, Christina Rossetti, George Eliot, Elizabeth Barrett Browning, and Harriet Martineau. This investigation incorporates analysis of fascinating cultural texts, including maps, periodicals, and tourist guidebooks. Easley links the practice of literary tourism to a variety of cultural developments, including nationalism, urbanization, spiritualism, the women's movement, and the expansion of popular print culture. The second section provides fresh insight into the ways that celebrity culture informed the development of Victorian historiography. Easley demonstrates how women were able to re-tell history from a proto-feminist perspective by writing contemporary history, participating in architectural reform movements, and becoming

active in literary societies

In this new textbook, Andrea Colli gives a historical and comparative perspective on family business, examining through time the different

relationships within family businesses and among family enterprises, inside different political and institutional contexts. He compares the performance of family businesses with that of other economic organizations, and looks at how these enterprises have contributed to the evolution of contemporary industrial capitalism. Central to his discussion are the reasons for both the decline and persistence of family business, how it evolved historically, the different forms it has taken over time, and how it has contributed to the growth of single economies. The book summarises previous research into family business, and situates many aspects of family business - such as their strategies, contribution, failure and decline - in an economic, social, political and institutional context. It will be of key interest to students of economic history and business studies.

Bachelors, Manhood, and the Novel, 1850-1925 - Katherine V. Snyder 1999-09-02

Katherine Snyder's study explores the significance of the bachelor narrator, a prevalent but little-recognised figure in premodernist and modernist fiction by male authors, including Hawthorne, James, Conrad, Ford and Fitzgerald. Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who, by crossing the shifting, permeable boundaries of bourgeois domesticity, highlighted the limits of conventional masculinity. The very marginality of the figure, Snyder argues, effects

a critique of gendered norms of manhood, while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man. Bachelor figures made, moreover, an ideal narrative device for male authors who themselves occupied vexed cultural positions. By attending to the gendered identities and relations at issue in these narratives, Snyder's study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism.

Standing Ground - Thomas Buckley 2002-12-23
This colorful, richly textured account of spiritual training and practice within an American Indian social network emphasizes narrative over analysis. Thomas Buckley's foregrounding of

Yurok narratives creates one major level of dialogue in an innovative ethnography that features dialogue as its central theoretical trope. Buckley places himself in conversation with contemporary Yurok friends and elders, with written texts, and with twentieth-century anthropology as well. He describes Yurok Indian spirituality as "a significant field in which individual and society meet in dialogue—cooperating, resisting, negotiating, changing each other in manifold ways. 'Culture,' here, is not a thing but a process, an emergence through time."

Forcibly Without Her Consent - Thomas P. Power 2010-07-29

Why do men abduct women? Are their motives sexual, economic, or social? How crucial is the use of violence? How important is the participation of others? What are the societal consequences of abduction? Answers to these questions can usefully be found in a historical case study of abductions as they occurred in Ireland between 1700 and 1850. *Forcibly Without Her Consent* describes in detail how abduction was a largely communally-sanctioned exercise in male violence against women, how it depended for success on a well established

ritual, how it eluded suppression by the forces of law and order, and how it impacted class structure, marriage, and patterns of rural unrest. In fascinating detail, Thomas Power uncovers the causes and implications of abduction. Reading this book will give you a deep insight into the social origins of abduction.

Stories from Home - Dr Margaret Ponsonby
2013-06-28

Most homes in the past were not elite, wealthy interiors complete with high fashion furnishings, designed by well-known architects and designers, as many domestic histories often seem to have assumed. As this book makes clear, there were in fact an enormous variety of house interiors in England during the period 1750-1850, reflecting the location, status and gender of particular householders, as well as their changing attitudes, tastes and aspirations. By focusing on non-metropolitan homes, which represented the majority of households in

England, this study highlights the need for historians to look beyond prevailing attitudes that often reduce interiors to generic descriptions based on high fashions of the decorative arts. Instead it shows how numerous social and cultural influences affected the manner in which homes were furnished and decorated. Issues such as the availability of goods, gender, regional taste, income, the second-hand market, changing notions of privacy and household hierarchies and print culture, could all have a significant impact on domestic furnishing. The study ends with a discussion of how domestic interiors of historic properties have been presented and displayed in modern times, highlighting how competing notions of the past can cloud as well as illuminate the issue. Combining cultural history and qualitative analysis of evidence, this book presents a new way of looking at 'ordinary' and 'provincial' homes that enriches our understanding of English domestic life of the late eighteenth and

early nineteenth centuries.

Society and Economy in Modern Britain

1700-1850 - Richard Brown 2002-11-01

For both contemporaries and later historians the Industrial Revolution is viewed as a turning point' in modern British history. There is no doubt that change occurred, but what was the nature of that change and how did affect rural and urban society? Beginning with an examination of the nature of history and Britain in 1700, this volume focuses on the economic and social aspects of the Industrial Revolution. Unlike many previous textbooks on the same period, it emphasizes British history, and deals

with developments in Wales, Scotland, and Ireland in their own right. It is the emphasis on the diversity, not the uniformity of experience, on continuities as well as change in this crucial period of development, which makes this volume distinctive. In his companion title Richard Brown completes his examination of the period and looks at the changes that took place in Britain's political system and in its religious affiliations.
