How Tobacco Smoke Causes Disease - 2010

This report considers the biological and behavioral

mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

The Pale King - David Foster Wallace 2011-04-15

The agents at the IRS Regional Examination Center in Peoria, Illinois, appear ordinary enough to newly arrived trainee David Foster Wallace. But as he immerses himself in a routine so tedious and repetitive that new employees receive boredom-survival training, he learns of the

extraordinary variety of personalities drawn to this strange calling. And he has arrived at a moment when forces within the IRS are plotting to eliminate even what little humanity and dignity the work still has. The Pale King remained unfinished at the time of David Foster Wallace's death, but it is a deeply compelling and satisfying novel, hilarious and fearless and as original as anything Wallace ever undertook. It grapples directly with ultimate questions--questions of life's meaning and of the value of work and society--through characters imagined with the interior force and generosity that were Wallace's unique gifts. Along the way it suggests a new idea of heroism and commands infinite respect for one of the most daring writers of our time.

The Oxford Handbook of the Australian Constitution - Cheryl Saunders 2018

Constitutional law provides the legal framework for the Australian political and legal systems, and thus touches almost every aspect of Australian life. The Handbook offers a critical analysis of some of the most significant aspects of Australian constitutional arrangements, setting them against the historical, legal, political, and social contexts in which Australia's constitutional system has developed. It takes care to highlight the distinctive features of the Australian constitutional system by placing the Australian system, where possible, in global perspective. The chapters of the Handbook are arranged in seven thematically-grouped parts. The first, 'Foundations', deals with aspects of Australian history which have influenced constitutional arrangements. The second, 'Constitutional Domain', addresses the

interaction between the constitution and other relevant legal systems and orders, including the common law, international law, and state constitutions. The third, 'Themes', identifies themes of special constitutional significance, including the legitimacy of the constitution, citizenship, and republicanism. The fourth, 'Practice and Process', deals with practical issues relevant to constitutional litigation, including the processes, techniques, and authority of the High Court of Australia. The final three parts deal with the structural building blocks of the Australian Constitutional system: 'Separation of Powers', 'Federalism', and the 'Protection of Rights.' Written by a team of experts drawn from academia and practice, the Handbook provides Australian and international readers alike with a reliable source of knowledge, understanding, and insight into the Australian Constitution. Brown Girl Dreaming -

Jacqueline Woodson

2016-10-11

Jacqueline Woodson's National Book Award and Newbery Honor winner is a powerful memoir that tells the moving story of her childhood in mesmerizing verse. A President Obama "O" Book Club pick Raised in South Carolina and New York, Woodson always felt halfway home in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement. Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child's soul as she searches for her place in the world. Woodson's eloquent poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. Her love of stories inspired her and stayed with

her, creating the first sparks of the gifted writer she was to become. Includes 7 additional poems, including "Brown Girl Dreaming." Praise for Jacqueline Woodson: "Ms. Woodson writes with a sure understanding of the thoughts of young people, offering a poetic, eloquent narrative that is not simply a story . . . but a mature exploration of grown-up issues and self-discovery."—The New York Times Book Review

Decolonizing Methodologies

- Linda Tuhiwai Smith
2016-03-15

'A landmark in the process of decolonizing imperial Western knowledge.' Walter D. Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling

book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.

The Massillon Tigers - David Lee Morgan, Jr. 2020-09-08

After playing 4 quarters of hard-fought football games, the Massillon Tiger football team gathered in a circle at the center of every football field they played on in 2019 to do 15 pushups—a pushup for every game it would take to lead them to the State Championship game. The mantra for the season became: 15 for 15. Each pushup is represented as a chapter in this book and a different piece

of the puzzle that explains the football town of Massillon, Ohio. In this dramatic and entertaining book, Author and Tiger running back coach, David Lee Morgan, Jr. shares stories that offer a unique and unequalled perspective into the 2019 season and the Tigers' quest for that elusive state championship. The Massillon Tiger football program isn't a typical high school football program. It's a ministry of football with the first season dating back to 1894. In this small, midwestern Ohio rust belt town, the community has rallied around this team every Friday at the historic Paul Brown Tiger Stadium (capacity 16,000) for decades. The school has produced numerous NFL standouts, including coaching legend and Hall of Famer Paul Brown. The Massillon support, locally and nationwide, is unrivaled and is arguably one of the most recognizable and successful high school football programs in the country. The Massillon Tigers: 15 for 15 is the next generation's Friday Night

Lights—the powerful tale of one of the most storied high school football programs anywhere in the country and their magical 2019 season, as told by an award-winning author and journalist who enjoyed unlimited access to the players, coaches, and families through his role as the running backs coach.

American Dirt - Jeanine Cummins
2020-02-26

"Extraordinary." --Stephen King "This book is not simply the great American novel; it's the great novel of las Americas. It's the great world novel! This is the international story of our times. Masterful." --Sandra Cisneros También de este lado hay sueños. On this side too, there are dreams. Lydia Quixano Pérez lives in the Mexican city of Acapulco. She runs a bookstore. She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show

in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with a few books he would like to buy--two of them her favorites.

Javier is erudite. He is charming. And, unbeknownst to Lydia, he is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find themselves miles and worlds away from their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride la bestia--trains that make their way north toward the United States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reach el norte, Lydia soon sees that everyone

is running from something. But what exactly are they running to? American Dirt will leave readers utterly changed. It is a literary achievement filled with poignancy, drama, and humanity on every page. It is one of the most important books for our times. Already being hailed as "a Grapes of Wrath for our times" and "a new American classic," Jeanine Cummins's American Dirt is a rare exploration into the inner hearts of people willing to sacrifice everything for a glimmer of hope.

Adverse Effects of Vaccines -

Institute of Medicine

2012-04-26

In 1900, for every 1,000 babies born in the United States, 100 would die before their first birthday, often due to infectious diseases. Today, vaccines exist for many viral and bacterial diseases. The National Childhood Vaccine Injury Act, passed in 1986, was intended to bolster vaccine research and development through the federal coordination of vaccine initiatives and to provide relief to vaccine manufacturers facing financial burdens. The

legislation also intended to address concerns about the safety of vaccines by instituting a compensation program, setting up a passive surveillance system for vaccine adverse events, and by providing information to consumers. A key component of the legislation required the U.S. Department of Health and Human Services to collaborate with the Institute of Medicine to assess concerns about the safety of vaccines and potential adverse events, especially in children. *Adverse Effects of Vaccines* reviews the epidemiological, clinical, and biological evidence regarding adverse health events associated with specific vaccines covered by the National Vaccine Injury Compensation Program (VICP), including the varicella zoster vaccine, influenza vaccines, the hepatitis B vaccine, and the human papillomavirus vaccine, among others. For each possible adverse event, the report reviews peer-reviewed primary studies, summarizes their findings, and evaluates

the epidemiological, clinical, and biological evidence. It finds that while no vaccine is 100 percent safe, very few adverse events are shown to be caused by vaccines. In addition, the evidence shows that vaccines do not cause several conditions. For example, the MMR vaccine is not associated with autism or childhood diabetes. Also, the DTaP vaccine is not associated with

diabetes and the influenza vaccine given as a shot does not exacerbate asthma. Adverse Effects of Vaccines will be of special interest to the National Vaccine Program Office, the VICP, the Centers for Disease Control and Prevention, vaccine safety researchers and manufacturers, parents, caregivers, and health professionals in the private and public sectors.
