**Gifts Guaranteed to Please a Woman** - Karen Adams 2004-03

After a life time of seeing this Country we love, developing problem, after problem, and not fixing any of them, some one had to speak out. Just stop and think about any problem that comes to mind, gas prices, health care, lost jobs, or a hundred others you could come up with. What caused them? It wasn't the people, or a terrorist, business, or an enemy, it was the Governments actions, or inactions. Our government of the people, by the people, and for the people, is supposed to be a representative democracy. Represent is the word lost, the people we send to Washington think representing us, is them doing as they please. From our President, to our Senators and representatives, they tell us what is good for us, and dictate what we must endure. Our political party system, has become like two Mafia gangs, trying to take the other out to run the show. No matter which is in power, the crimes are the same. We are to blame because we let these people who are our hired help, forget this fact, and think they are like exalted rulers. They have used politics to divide us, gave us divided Government, and divided and conquered us. A divided people can not stand, can we ever be one people, one nation under God, one for all, and all for one, as some men dreamed.

Archaeology and Anthropology - David Shankland 2020-05-18

Though archaeologists have long acknowledged the work of social anthropologists, anthropologists have been much less eager to repay the compliment. This volume argues that the time has come to recognise the insights archaeological approaches can bring to anthropology. Archaeology's rigorous approach to evidence and material culture; its ability to develop flexible research methodologies; its readiness to work with large-scale models of comparative social change, and to embrace the latest technology all means that it can offer valuable methods that can enrich and enhance current anthropological thinking. Cross-disciplinary and international in scope, this exciting volume draws together cutting-edge essays on the relationship between the two disciplines, arguing for greater collaboration and pointing to new concepts and approaches for anthropology. With contributions from leading scholars, this book will be essential reading for students and scholars of archaeology, anthropology and related disciplines.

There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented" --Dave Eggers. "It's a piece of garbage" --Donald Trump.
