*An African Elegy* - Ben Okri 2015-04-30  
Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to

experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*  
*Applied Business Statistics* - Trevor Wegner 1993

*Applied Business Statistics: Methods and Excel-based applications* (second edition) is an introductory Statistics text written specifically for Management students who require an understanding of the role of Statistics in analysing business data in fields such as Marketing, Finance, Human Resources, Production and Logistics. The primary focus of this text is to empower management students with statistical decision making skills so that they become active participants rather than passive observers in business situations where statistical findings are reported and discussed as part of a management decision making process. The text is divided into three major sections: „h exploratory data analysis „h statistical inferences, and „h statistical modelling. Each section focuses on a different role of Statistics as a decision support tool. Emphasis is therefore placed on: „h the data requirements for the various techniques and issues of data quality „h indentifying likely application areas through numerous illustrative examples „h noting the limitations of techniques for decision analysis, and the valid management interpretation of statistical findings. A new feature of this edition of *Applied Business Statistics* is the use of computer software such as Excel to perform

statistical analysis. Excel's statistical capabilities are illustrated through numerous worked examples found in the text. Students are given the opportunity to familiarize themselves with Excel's statistical capabilities by applying them to data sets of business problems, which are available on the accompanying CD. Students can monitor their learning with the help of the exercises at the end of every chapter. Each statistical technique is developed through business-related worked examples drawn from the author's diverse work experiences as a statistical consultant. In this way, a student can readily grasp the basic concept of the technique as well as see how it would be applied in practice. This combination of method and application should prove helpful to both student and lecturer. With a working knowledge of Excel, students can become managers who are able to design and conduct their own statistical analysis in the workplace. Applied Business Statistics is therefore accessible to all students, as only a basic level of mathematical ability is required to work through this book.

**Eunuchs in the Ming Dynasty, The** - Shih-shan Henry Tsai 1996-01-01

This book is the first on Chinese eunuchs in English and presents a comprehensive picture of the role that they played in the Ming dynasty, 1368-1644. Extracted from a wide range of primary and secondary source material, the author provides significant and interesting

information about court politics, espionage and internal security, military and foreign affairs, tax and tribute collection, the operation of imperial monopolies, judiciary review, the layout of the palace complex, the Grand Canal, and much more. The eunuchs are shown to be not just a minor adjunct to a government of civil servants and military officers, but a fully developed third branch of the Ming administration that participated in all of the most essential matters of the dynasty. The veil of condemnation and jealousy imposed on eunuchs by the compilers of official history is pulled away to reveal a richly textured tapestry. Eunuchs are portrayed in a balanced manner that gives due consideration to able and faithful service along with the inept, the lurid, and the iniquitous.

**IBM Tivoli Directory Server for z/OS** - Karan Singh 2011-07-07

This IBM® Redbooks® publication examines the IBM Tivoli® Directory Server for z/OS®. IBM Tivoli Directory Server is a powerful Lightweight Directory Access Protocol (LDAP) infrastructure that provides a foundation for deploying comprehensive identity management applications and advanced software architectures. This publication provides an introduction to the IBM Tivoli Directory Server for z/OS that provides a brief summary of its features and an examination of the possible deployment topologies. It discusses planning a deployment of IBM Tivoli Directory Server for z/OS, which includes prerequisites, planning considerations, and data stores, and provides a brief overview of the configuration process. Additional chapters provide a detailed discussion of the IBM Tivoli Directory Server for z/OS architecture that examines the supported back ends, discusses in what scenarios they are best used, and provides usage examples for each back end. The discussion of schemas breaks down the schema and provides guidance on extending it. A broad discussion of authentication, authorization, and security examines the various access protections, bind mechanisms, and transport security available with IBM Tivoli Directory Server for z/OS. This chapter also provides an examination of the new Password Policy feature. Basic and advanced replication topologies are also covered. A discussion on plug-ins provides details on the

various types of plug-ins, the plug-in architecture, and creating a plug-in, and provides an example plug-in. Integration of IBM Tivoli Directory Server for z/OS into the IBM Workload Manager environment is also covered. This publication also provides detailed information about the configuration of IBM Tivoli Directory Server for z/OS. It discusses deploying IBM Tivoli Directory Server for z/OS on a single system, with examples of configuring the available back ends. Configuration examples are also provided for deploying the server in a Sysplex, and for both basic and advanced replication topologies. Finally it provides guidance on monitoring and debugging IBM Tivoli Directory Server for z/OS.

**Long Walk to Freedom** - Nelson Mandela  
2008-03-11

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's anti-apartheid movement, he was instrumental in

moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

Mindset - Carol S. Dweck 2007-12-26

From the renowned psychologist who introduced the world to “growth mindset” comes this updated edition of the million-copy bestseller—featuring transformative insights into redefining success, building lifelong resilience, and supercharging self-improvement. “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, *GatesNotes* “It’s not always the people who start out the smartest who end up the smartest.” After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly

embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.

**Media Matters in South Africa** - Jeanne Prinsloo 1991

This report contains a selection of contributed papers and presentations from a conference attended by 270 educators and media workers committed to formulate a vision for media education in South Africa. Pointing out that media education has been variously described in South Africa as visual literacy, mass media studies, teleliteracy, and film studies, or as dealing with educational technology or educational media, the introduction cites a definition of media education as an exploration of contemporary culture alongside more traditional literary texts. It is noted that this definition raises issues for education as a whole, for traditional language study, for media, for communication, and for understanding the world. The 37 selected papers in this collection are presented in seven categories: (1) Why Media Education? (keynote paper by Bob Ferguson); (2) Matters Educational (10 papers on media education and visual literacy); (3) Working Out How Media Works (4 papers on film studies, film technology, and theory); (4) Creating New Possibilities for Media Awareness (9 papers on film and television and 4 on print media); (5) Training and Empowering (2 papers focusing on teachers and 4 focusing on training producers); (6) Media Developing Media Awareness (2 papers); and (7) Afterthoughts (1 paper). Appendices include the Unesco

Declaration on Media Education (1982),  
Recommendations from the Toulouse Colloquy  
on New Directions in Media Education (1990),  
and Resolutions and Conclusions of the First  
National Media Education Conference (Durban,  
1990). Most of the papers provide their own  
bibliographies. (DB)
