Details that prompted Madelyn to cling to him as pain consumed her. And the deeper he dug, the more invested Caleb became in their tiny family, in

their safety when danger penetrated their lives--and in their salvation when he promised to bring a little girl home....

Dark Matter, Missing Planets and New Comets - Tom Van Flandern 1999-01-08

Tom Van Flandern's book adds a new dimension to cosmology--not only does it present a novel approach to timeless issues, it stands up to the closest scientific scrutiny. Even the most respected scientists today will readily admit that the Big Bang Theory is full of holes. But it takes a new look, like Dark Matter, Missing Planets, and New Comets, to explain not only why the theory is wrong but what to substitute in its place. If you are curious about such things as the nature of matter and the origin of the solar system, but feel inadequately equipped to grasp what modern science has to say about such things, read this book. You will not get the all too common condescending attempt to water down the `mysteries' of modern science into a form intelligible to little non scientist you, but rather a straightforward new theory, logically derived in front of your eyes, which challenges the roots of many of today's complex accepted paradigms, yet whose essence is simple enough to be thoroughly communicated to the intelligent layman without "losing it in the translation."

He also learned that, two years later, the boy was found and returned to his family—and that the boy was him. Nearly fifty years later, Paul, acting on long-held suspicions, took a DNA test that proved he was not the kidnapped boy. The Vanishing Half - Brit Bennett 2022-02-01

For any era, it's an accomplished, affecting novel. For this moment, it's piercing, subtly wending its way toward questions about who we are and who we want to be...." - Entertainment Weekly From The New York Times bestselling author of *The Mothers*, a stunning new novel about twin sisters, inseparable as children, who ultimately choose to live in two very different worlds, one black and one white. The Vignes twin sisters will always be identical. But after growing up together in a small, southern black community

and running away at age sixteen, it's not just the shape of their daily lives that is different as adults, it's everything: their families, their communities, their racial identities. Many years later, one sister lives with her black daughter in the same southern town she once tried to escape. The other secretly passes for white, and her white husband knows nothing of her past. Still, even separated by so many miles and just as many lies, the fates of the twins remain intertwined. What will happen to the next generation, when their own daughters' storylines intersect? Weaving together multiple strands and generations of this family, from the Deep South to California, from the 1950s to the 1990s, Brit Bennett produces a story that is at once a riveting, emotional family story and a brilliant exploration of the American history of passing. Looking well beyond issues of race, *The Vanishing Half* considers the lasting influence of the past as it shapes a person's decisions, desires, and expectations, and explores some of the multiple reasons and realms in which people sometimes feel pulled to live as something other than their origins. As with her New York Times bestselling debut *The Mothers*, Brit Bennett offers an engrossing page-turner about family and relationships that is immersive and provocative, compassionate and wise.

Searching for Sebald - Lise Patt 2007

W.G. Sebald's books are sui generis hybrids of fiction, travelogue, autobiography and historical exposé, in which a narrator (both Sebald and not Sebald) comments on the quick blossoming of natural wonders and the long deaths that come of human atrocities. All his narratives are punctuated with images--murky photographs, architectural plans, engravings, paintings, newspaper clippings--inserted into the prose without captions and often without obvious connection to the words that surround them. This important volume includes a rare 1993 interview called "'But the written word is not a true document': A Conversation with W.G. Sebald about Photography and Literature," in which Sebald talks exclusively about his use of photographs. It contains some of Sebald's most illuminating and poetic remarks about the topic yet. In it, he discusses Barthes, the photograph's "appeal," the childhood image of Kafka, family photographs, and even images he never used in

his writings. In addition, *Searching for Sebald* positions Sebald within an art-historical tradition that begins with the Surrealists, continues through Joseph Beuys and blossoms in the recent work of Christian Boltanski and Gerhard Richter, and tracks his continuing inspiration to artists such as Tacita Dean and Helen Mirra. An international roster of artists and scholars unpacks the intricacies of his unique method. Seventeen theoretical essays approach Sebald through the multiple filters of art history (Krauss), film studies (Kluge), cultural theory (Benjamin), psychoanalysis (Freud), and especially photographic history and theory (Barthes, Kracauer), and 17 modern and contemporary art projects are read through a Sebaldian filter. If Sebald's artistic output acts as a touchstone for new critical theory being written on "post-medium" photographic practices, *Searching for Sebald* suggests a model for new investigations in the burgeoning field of visual studies.

A few days after graduating from high school, Lucy Lattimore sneaks away from the small town of Pompey, Ohio, with her charismatic former history teacher. They arrive in Nebraska, in the middle of nowhere, at a long-deserted motel next to a dried-up reservoir, to figure out the next move on their path to a new life. But soon Lucy begins to feel quietly uneasy. My whole life is a lie, thinks Ryan Schuyler, who has recently learned some shocking news.
