[Interactive Multimedia Learning](#) - Johannes Konert 2014-09-05

This book introduces new concepts and mechanisms regarding the usage of both social media interactions and artifacts for peer education in digital educational games. Digital games in general, and digital educational games in particular, represent an area with a high potential for interdisciplinary innovation, not only from an information technology standpoint, but also from social science, psychological and didactic perspectives. This book presents an interdisciplinary approach to educational games, which is centered on information technology and aims at: (1) improving digital management by focusing on the exchange of learning outcomes and solution assessment in a peer-to-peer network of learners; (2) achieving digital implementation by using forms of interaction to change the course of educational games; and (3) providing digital support by fostering group-formation processes in educational situations to increase both the effects of educational games and knowledge exchange at the individual level. In addition to a systematic analysis of the relationship between software architecture, educational games and social media applications, the book also presents the implemented IT systems' architectures and algorithmic solutions as well as the resulting applicable evaluation findings from the field of interactive multimedia learning.

The Windows - Fira Basuki 2006

[Do Dice Play God?](#) - Ian Stewart 2019-06-06

Uncertainty is everywhere. It lurks in every consideration of the future - the weather, the economy, the sex of an unborn child - even quantities we think that we know such as populations or the transit of the planets contain the possibility of error. It's no wonder that, throughout that history, we have attempted to produce rigidly defined areas of uncertainty - we prefer the surprise party to the surprise asteroid. We began our quest to make certain an uncertain world by reading omens in livers, tea leaves, and the stars. However, over the centuries, driven by curiosity, competition, and a desire be better gamblers, pioneering mathematicians and scientists began to reduce wild uncertainties to tame distributions of probability and statistical inferences. But, even as unknown unknowns became known unknowns, our pessimism made us believe that some problems were unsolvable and our intuition misled us. Worse, as we realized how omnipresent and varied uncertainty is, we encountered chaos, quantum mechanics, and the limitations of our predictive power. Bestselling author Professor Ian Stewart explores the history and mathematics of uncertainty. Touching on gambling, probability, statistics, financial and weather forecasts, censuses, medical studies, chaos, quantum physics, and climate, he makes one thing clear: a reasonable probability is the only certainty.

Time For A Change - Erica James 2009-12-23

A vibrant, often humorous tale of life, love - and infidelity - from the bestselling author of PROMISES, PROMISES. Hilary had always thought she'd lived a charmed life. With a caring husband, David, and two lively children, she took an active part in both family and village life. Then, one Monday morning, Hilary's world is turned upside down. She discovers that David is having an affair. How could he? How could he put at risk their children and everything they have built together over the years? The question is, what should Hilary do? Turn a blind eye, much as neighbour Cindy has done over her own husband's various dalliances? Confront him, as her outspoken new friend Georgia suggests? Or perhaps she should throw herself at attractive newcomer to the village Nick Bradshaw... Whatever happens, it seems certain that for Hilary, life is never going to be quite the same again.

The Native Speaker - Alan Davies 2003-01-01

Linguists, applied linguists and language teachers all appeal to the native speaker as an important reference point. But what exactly (who exactly?) is the native speaker? This book examines the native speaker from different points of view, arguing that the native speaker is both myth and reality.

Augmented Reality in Education - Vladimir Geroimenko 2020-05-26

This is the first comprehensive research monograph devoted to the use of augmented reality in education. It is written by a team of 58 world-leading researchers, practitioners and artists from 15 countries, pioneering in employing augmented reality as a new teaching and learning technology and tool. The authors explore the state of the art in educational augmented reality and its usage in a large variety of particular areas, such as medical education and training, English language education, chemistry learning, environmental and special education, dental training, mining engineering teaching, historical and fine art education. *Augmented Reality in Education: A New Technology for Teaching and Learning* is essential reading not only for educators of all types and levels, educational researchers and technology developers, but also for students (both graduates and undergraduates) and anyone who is interested in the educational use of emerging augmented reality technology.

Professor Stewart's Incredible Numbers - Ian Stewart 2015-04-07

At its heart, mathematics is about numbers, our fundamental tools for understanding the world. In *Professor Stewart's Incredible Numbers*, Ian Stewart offers a delightful introduction to the numbers that surround us, from the common (Pi and 2) to the uncommon but no less consequential (1.059463 and 43,252,003,274,489,856,000). Along the way, Stewart takes us through prime numbers, cubic equations, the concept of zero, the possible positions on the Rubik's Cube, the role of numbers in human history, and beyond! An unfailingly genial guide, Stewart brings his characteristic wit and erudition to bear on these incredible numbers,

offering an engaging primer on the principles and power of math.

The Life of a Banana - P. P. Wong 2018-06

Longlisted for the Baileys Women's Prize for Fiction Xing Li is what some Chinese people call a banana - yellow on the outside and white on the inside. Although born and raised in London, she never feels like she fits in. When her mother dies, she moves with her older brother to live with venomous Grandma, strange Uncle Ho and Hollywood actress Auntie Mei. Her only friend is Jay - a mixed raced Jamaican boy with a passion for classical music. . Then Xing Li's life takes an even harsher turn: the school bullying escalates and her uncle requests she assist him in an unthinkable favour. Her happy childhood becomes a distant memory as her new life is infiltrated with the harsh reality of being an ethnic minority. Consumed by secrets, violence and confusing family relations, Xing Li tries to find hope wherever she can. In order to find her own identity, she must first discover what it means to be both Chinese and British. PP Wong has delivered a unique and realistic young adult drama that is bursting with original content style and emotion. What Reviewers and Readers Say: 'PP Wong has blazed a trail for future British Chinese novelists ... bursting with original and exciting flavours, ' The Independent 'A moving and optimistic debut about orphaned siblings coping with a new strict home and racial bullying, ' The Guardian 'Life of a Banana is so refreshingly distinct. Read it, and you will soon find yourself wanting more, ' Daily Mail 'Impeccably observed, often hilarious, and deeply moving... pitch-perfect, ' David Henry Hwang

A Glimpse of Iraq - Ibrahim Al-Shawi 2006

A book written by an Iraqi about Iraq and Iraqis to make them comprehensible. It explains the diversity and the lingering antiquity that shape the country in simple terms and through facts and anecdotes. It looks at the occupation, the chaos and lawlessness that followed and their effect on the lives of people and individuals. It also provides a look into the "Triangle of Death" - one of the most volatile regions in the

country - from the inside, showing some of the intricacies of tribal relations. But, above all, this book is about people. It aims to illustrate how ordinary people dealt with the traumatic situation, why civil war was so hard to ignite and why there is still hope. It may help the reader understand the failure to understand that led to failure.

Schizo - Nic Sheff 2015-09-08

The fascinating, shocking, and ultimately quite hopeful story of one teen's downward spiral into mental illness by the bestselling author of *Tweak* and son of David Sheff (author of *Beautiful Boy*, the memoir adapted into a movie of the same name starring Steve Carell and Timothée Chalamet). Miles is the ultimate unreliable narrator—a teen recovering from a schizophrenic breakdown who believes he is getting better . . . when in reality he is growing worse. Driven to the point of obsession to find his missing younger brother, Teddy, and wrapped up in a romance that may or may not be the real thing, Miles is forever chasing shadows. As Miles feels his world closing around him, he struggles to keep it open, but what you think you know about his world is actually a blur of gray, and the sharp focus of reality proves startling. Written by Nic Sheff, son of David Sheff (author of *Beautiful Boy*, the memoir adapted into a movie of the same name starring Steve Carell and Timothée Chalamet), *Schizo* is the fascinating, and ultimately quite hopeful, story of one teen's downward spiral into mental illness as he chases the clues to a missing brother. Perfect for fans of *Thirteen Reasons Why*, *The Perks of Being a Wallflower*, and *It's Kind of a Funny Story*. "This spare book is a well-written, but painful, read, as readers come to understand the hopelessness Miles feels about his life and his future."—VOYA "In his first novel, memoirist Sheff (*Tweak*) provides an insightful perspective on one teen's struggle with mental

illness.”—Publishers Weekly

Management of Physical Education and Sport - March Krotee

The Birdwoman's Palate - Laksmi Pamuntjak 2020-02

In this exhilarating culinary novel, a woman's road trip through Indonesia becomes a discovery of friendship, self, and other rare delicacies. Aruna is an epidemiologist dedicated to food and avian politics. One is heaven, the other earth. The two passions blend in unexpected ways when Aruna is asked to research a handful of isolated bird flu cases reported across Indonesia. While it's put a crimp in her aunt's West Java farm, and made her own confit de canard highly questionable, the investigation does provide an irresistible opportunity. It's the perfect excuse to get away from corrupt and corrosive Jakarta and explore the spices of the far-flung regions of the islands with her three friends: a celebrity chef, a globe-trotting "foodist," and her coworker Farish. From Medan to Surabaya, Palembang to Pontianak, Aruna and her friends have their fill of local cuisine. With every delicious dish, she discovers there's so much more to food, politics, and friendship. Now, this liberating new perspective on her country--and on her life--will push her to pursue the things she's only dreamed of doing.

Effective School Leadership - John MacBeath 1998-09-30

`This is a zippy read arising out of the international project "effective

leadership in a time of change", which grapples with the nature and practice of leadership (as opposed to management or administration) in schools' - Times Educational Supplement Who really runs the school - head teachers or governors? What do pupils think of their leaders and should they have a bigger role in school leadership? Is the United Kingdom obsessed with discipline and `strong leadership' as others suggest? Is New Public Management an insidious undermining of what is important and valuable in the UK educational system? The answers to these and other questions present surprises and challenges to the way things are seen in the UK. This book provides evidence from other countries that raises many questions about effective leadership and how it is seen from different viewpoints, and examines the issues in a political context and in relation to a changing world scene.

Social Work in Europe - Charlotte Williams 2013-09-13

It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

The Story of Kadirun - Semaoen 2014

Historical novel on Indonesia during Dutch rule, ca. 1919.

The Glory of Sri Sri Ganesh - Mahāśvetā Debī 2003

The Glory of Sri Sri Ganesh shows the lives of the underdogs the Lachhimsa, the Rukmanis, the Mohors and the Haroas as a contrast to the lives of their all-powerful overlords the Medinis and Ganeshes. Lachhima, whose leashed bitterness and anger of a lifetime against Medini and Ganesh is liberated at the end of the novel when Ganesh begs her to save his life, decides to save him, but on her own terms. The title of the work itself becomes a tool for subversion in this sprawling novel which takes the reader through a multilayered narrative into the socio-economic malaise of post-independence rural India. Mahasweta Devi's corrosive humour and cryptic style are at their best as she takes on issues of agrarian land relations, inter-caste violence, so-called rural development and position of women in rural India. Considered one of Mahasweta Devi's most important works, this novel, written in 1981, appeared shortly after her seminal *Chotti Munda and His Arrow*. The hope of liberation contained in *Chotti Munda* continues in this book. As the author says, *Chotti Munda* talked of the dream of the dispossessed tribals uniting in struggle with the equally marginalized low caste communities; while this novel shows how being landless and being born low caste is almost inevitably linked in India. Mahasweta Devi is one of India's foremost writers. Her powerful fiction has won her recognition in the form of the Sahitya Akademi (1979), Jnanpith (1996) and Ramon Magsaysay (1996) awards, the title of Officier del Ordre Des Arts Et Des Lettres (2003) and the Nonino Prize (2005) amongst several other literary honours. She was also awarded the Padmasree in 1986, for her activist work among dispossessed tribal communities. Ipsita Chanda is a translator who also teaches Comparative Literature in Jadavpur University.

Perlawanan petani hutan - Sulistyarningsih 2013

Conflict in forest management between government and local community of Randublatung, Jawa Tengah Province.

Javanese Gentry - Umar Kayam 2013-01-01

"In my mind rose a misty picture of a little girl in a floral dress. As for her face: nothing. I could only hope that she had been pretty. I sat overcome. What a procession of developments in one day! Only that morning I had left Madiun; at midday I was wobbling on a buggy past an ocean of rice fields; tonight, suddenly, I had been renamed by my parents and handed a wife." Thus begins Sastrodarsono's life, returning to his village as a newly-appointed schoolteacher, and by virtue of that position, a member of the "priyayi" - functionary gentry awesomely elevated above the peasantry of his origins. From those most traditional of Javanese institutions - change of name and a virtually imposed marriage-he moves on with his bride to found a line of modernizing generations active across the whole span of recent Indonesian history: the 20th century late-colonial period, Japanese occupation, war of independence and two decades of social disorder ending in the mid-1960s with the rise of Suharto's authoritarian New Order government. The ideal of gentrification threads through this saga, both in the implicit concerns of a variety of characters and in the hopes of wretched villagers for whom the literacy necessary to approach that higher status is largely a forlorn dream.

Challenging Islamic Orthodoxy - Al Makin 2016-09-22

This book is the first work that comprehensively presents the accounts of Lia Eden, a former flower arranger who claims to have received divine messages from the Archangel Gabriel and founded the divine Eden Kingdom in her house in Jakarta. This book places Lia Eden's prophetic trajectory in the context of diverse Indonesian spiritual and religious traditions, by which hundreds of others also claimed to have been commanded by God to lead people and to establish religious groups. This book offers a fresh approach towards the rich Indonesian religious and spiritual traditions with particular attention to the accounts of the emergence of indigenous prophets who founded some popular religions. It presents the history of prophetic tradition which remains alive in Indonesian society from the colonial to reform period. It also explores the ways in which these prophets rebelled against two hegemonies: colonial power in the past and Islamic orthodoxy in the present. The discussion of this book focuses on Lia Eden including her biography, claims to prophethood and divinity, the development of her group Eden Kingdom, her challenge to Islamic orthodoxy under the banner of the MUI (Indonesian Ulama Council), her persecution by radical groups, her experiences in court trials and imprisonment, and public responses to her emergence. The discussion also covers other themes currently drawing public attention in Indonesia, such as pluralism, religious freedom, tolerance, discrimination against minorities, and secularisation.

Quality in Teaching - Centre for Educational Research and Innovation 1994

This book reports on an international study of quality in teaching in elementary and secondary schools and on policies to promote quality teaching in 11 countries. The study on which the book is based called on case studies by experts from 11 countries on policies to improve the quality of teaching, seminars for teachers to discuss the definition of quality and what affects it, and descriptions of new developments in initial teacher education. Participating countries were Australia, Austria, Finland, France, Italy, Japan, New Zealand, Norway, Sweden, United Kingdom, and United States. Chapter 1 places the study in the context of previous research and ongoing reforms of educational systems. Chapter 2 reviews the conceptual framework and procedures used in the country studies. Chapter 3 describes the samples of schools studied in each country. Chapter 4 presents the strong similarities among countries in the attributes and actions of good teachers. Chapter 5 explains the range of policies to improve teacher quality that were described in the country studies. Chapter 6 describes characteristics of schools that support high quality education. Chapter 7 analyses some of the implications and possible conflicts among initiatives to improve teacher quality that arise from central policies, local schools, and individual teachers themselves. Contains 56 references. (JB)

A Profile of the Steel Industry - Peter Warrian 2012-11-02

Steel companies were at the birth of the modern business corporation. The first billion dollar corporation ever formed was U.S. Steel in 1901. By the mid-twentieth century the steel mill and the automobile plant were the two pillars upon which the twentieth century industrial economy rested. Given the scale of capital and operations, vertical integration was seen to be pivotal, from the raw materials of iron ore and coal on one end of the supply chain to the myriad of finished products on the other. By the end of the twentieth century, however, things had

dramatically changed. Take a look inside for a brilliant and concise history of the steel industry. The author has put together a true presentation of the economics of the industry, with an overview of how the industry operates and the environment in which it operates. This book includes a detailed discussion of the regulation of the industry; a documentation of the reasons why a rejuvenated steel industry will be critical to the economic health of the United States and Canada; and a rationale for the reemergence of the steel industry in particular, and manufacturing in general, as a vital force in the North American economy of the new millennium. It was widely perceived that the United States was moving from an industrial age into an information age, driven by high technology. That process is now being reversed. The steel industry has continuously been forced to remake itself, and this book describes those developments and dynamics.
