China 3.0 - European Council on Foreign Relations 2012

"China's once-a-decade leadership change is currently underway in Beijing. The new leaders will take power at a crucial time for China, as it enters the third stage of its development since the revolution. How they deal with the challenges ahead will not just shape China, but

Europe and the entire world. Mark Leonard has drawn together a unique collection of essays from leading Chinese intellectuals and thinkers, examining the choices that it faces with its economy, its political system and its global role. After Mao's political revolution ('China 1.0') and Deng Xiaoping's economic revolution ('China 2.0'), Mark calls this 'China 3.0': Now that it is

becoming more affluent, how does China deal with growing inequalities, rebalancing its economy and its increasing exposure to the global economy? How does the Communist Party retain stability, with increasing friction within Chinese society and half a billion 'netizens' active on the web? China can no longer keep a low profile on the world stage so also needs to decide how to use its power and deal with grievances with neighbours like Japan and South Korea.

Voices of Hope - Carole B. Shmurak 1998
Fueled by media reports of gender bias in the

schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.
