**Starring Red Wing!** - Linda M. Waggoner  
2019-11-01

The epic biography **Starring Red Wing!** brings the exciting career, dedicated activism, and noteworthy legacy of Ho-Chunk actress Lilian Margaret St. Cyr vividly to life. Known to film audiences as “Princess Red Wing,” St. Cyr emerged as the most popular Native American actress in the pre-Hollywood and early studio-

system era in the United States. Today St. Cyr is known for her portrayal of Naturich in Cecile B. DeMille’s *The Squaw Man* (1914); although DeMille claimed to have “discovered the little Indian girl,” the viewing public had already long adored her as a petite, daredevil Indian heroine. She befriended and worked with icons such as Mary Pickford, Jewell Carmen, Tom Mix, Max Sennett, and William Selig. Born on the

Winnebago Reservation in 1884 and orphaned in 1888, she spent ten years in Indian boarding schools before graduating from the Carlisle Indian Industrial School in 1902. She married James Young Johnson, and in 1907 the couple reinvented themselves as the stage personas "Princess Red Wing" and "Young Deer," performing in Wild West shows around New York and beginning their film careers. As their popularity grew, St. Cyr and Johnson decamped from the East Coast and helped establish the second motion picture company in Southern California, where Red Wing became a Native American leading lady in westerns until her career waned in 1917. After returning to the reservation to work as a housekeeper, she took her show on a two-year tour to educate the public about Native culture and lived out her life in New York, performing, educating, and crafting regalia. Starring Red Wing! is a sweeping narrative of St. Cyr's evolution as America's first Native American film star, from

her childhood and performance career to her days as a respected elder of the multi-tribal New York City Indian Community.

Henry Myers, Sr. was born about 1750-1755 and died during the winter of 1816-1817 in Lewis County, Kentucky. There is some indication he was of German ancestry but there is no proof. Descendants later moved westward.

**Brun Campbell** - Larry Karp 2016-03-28

At fifteen, Sanford Brunson Campbell (1884-1952) became enchanted with the new sounds of ragtime and ran away from his rural Kansas home, hopping a train to Sedalia,

Missouri, determined to take piano lessons from a black musician he had never met. Scott Joplin nicknamed his white protege "The Ragtime Kid." A composer and entertainer at the dawn of the ragtime era, "Brun" was a prime mover in the ragtime revival of the 1940s and helped establish Joplin's prominence as one of America's most innovative composers.

Campbell's own legacy was tarnished by his inability to tell a straight story and he was often dismissed as a liar and a clown. Based on his memoirs, musical compositions and correspondence with music industry notables, this first comprehensive biography of Campbell reveals an engaging storyteller and a devotee wholly dedicated to a musical genre that had been largely forgotten. His firsthand account of life as an itinerant pianist in the Midwest provides a unique picture of life a century ago.

**The Last Siege** - Paul Brueske 2018-06-19  
An in-depth history of the Confederate Army's last stand in Mobile, Alabama, a month after Gen. Lee's surrender at Appomattox Court House. It has long been acknowledged that Gen. Robert E. Lee's surrender at the Battle of Appomattox ended the civil war in Virginia in April of 1865. However, the last siege of the war was the Mobile campaign, an often-overlooked battle that was nevertheless crucial to securing a complete victory. Indeed, the final surrender of Confederate forces happened in Alabama. The Last Siege explores the events surrounding the Union Army's capture of Mobile and offers a new perspective on its strategic importance,

including access to vital rail lines and two major river systems. Included here are the most detailed accounts ever written on Union and Confederate camp life in the weeks prior to the invasion, cavalry operations of both sides during the expedition, the Federal feint movement at Cedar Point, the crippling effect of torpedoes on US naval operations in Mobile Bay, the treadway escape from Spanish Fort, and the evacuation of Mobile. Evidence is presented that contradicts the popular notion that Mobile welcomed the Federals as a pro-Union town. Using primary sources, this book highlights the actions of Confederate soldiers who fought to the last with sophisticated military tactics in the Confederacy's last campaign, which led to the final surrender at Citronelle, Alabama, in May.

Marie Marvingt (1875-1963) set the world's first women's aviation records, won the only gold medal for outstanding performance in all sports, invented the airplane ambulance, was the first female bomber pilot in history, fought in World War I disguised as a man, took part in the Resistance of World War II, was the first to survive crossing the English Channel in a balloon, worked all her life as a journalist, spent

years in North Africa and invented metal skis. Her life story was so unusually rich in exploits and accomplishments that some dismissed it as a hoax. This biography explores the life of "the most incredible woman since Joan of Arc" and investigates the reasons she has been forgotten. Known as the "fiancee of danger," she was the model for the silent film series The Perils of Pauline.

Franklin D. Roosevelt and the Transformation of the Supreme Court - Stephen K. Shaw

2015-04-08

Franklin D. Roosevelt appointed 10 justices to the U.S. Supreme Court - more than any president except Washington - and during his presidency from 1933 to 1945, the Court gained more visibility, underwent greater change, and made more landmark decisions than it had in its previous 150 years of existence. This collection examines FDR's influence on the Supreme Court and the Court's growing influence on American life.

**The Washingtons. Volume 9** - Justin Glenn  
2016-10-06

This is the ninth volume of a comprehensive history that traces the “Presidential Line” of the Washingtons. Volume one began with the immigrant John Washington who settled in Westmoreland Co., Va., in 1657, married Anne Pope, and was the great-grandfather of President George Washington. It contained the record of their descendants for a total of seven generations. Subsequent volumes two through eight continued this family history for an additional eight generations, highlighting most

notable members (volume two) and tracing lines of descent from the royalty and nobility of England and continental Europe (volume three). Volume nine collects over 8,500 descendants of the recently discovered line of William Wright (died in Franklin Co., Va., ca. 1809). It also provides briefer accounts of five other early Wright families of Virginia that have often been mentioned by researchers as close kinsmen of George Washington, including: William Wright (died in Fauquier Co., Va., ca. 1805), Frances Wright and her husband Nimrod Ashby, and William Wright (died in Greensville Co., Va., by 1827). A cumulative index will complete the series as volume ten.
