Tragedy looms as the cloudland engines falter and mist rains terror on the surface, and in their desperation to reunite and save their people, Nimh and North face one ultimate question: can they defy their love and their destiny to save their homes? Onyeani 2012-03-27
Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' - discipline, self-reliance, ruthlessness - to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a

journalist, editor and former diplomat.

Gifted Hands - Ben Carson,

M.D. 2008-09-09

In 1987, Dr. Benjamin Carson gained worldwide recognition for his part in the first successful separation of Siamese twins joined at the back of the head. The extremely complex and delicate operation, five months in the planning and twenty-two hours in the execution, involved a surgical plan that Carson helped initiate. Carson pioneered again in a rare procedure known as hemispherectomy, giving children without hope a second chance at life through a daring operation in which he literally removed one half of their brain. But such breakthroughs aren't unusual for Ben Carson. He's been beating the odds since he was a child. Raised in inner-city Detroit by a mother with a third grade education, Ben lacked motivation. He had terrible grades. And a pathological temper threatened to put him in jail. But Sonya Carson convinced her son that he could make something of his life, even though everything around him said otherwise.

Trust in God, a relentless belief in his own capabilities, and sheer determination catapulted Ben from failing grades to the top of his class --- and beyond to a Yale scholarship . . . the University of Michigan Medical School . . . and finally, at age 33, the directorship of pediatric neurosurgery at Johns Hopkins Hospital in Baltimore, Maryland. Today, Dr. Ben Carson holds twenty honorary doctorates and is the possessor of a long string of honors and awards, including the Horatio Alger Award, induction into the 'Great Blacks in Wax' Museum in Baltimore, Maryland, and an invitation as Keynote Speaker at the 1997 President's National Prayer Breakfast. Gifted Hands is the riveting story of one man's secret for success, tested against daunting odds and driven by an incredible mindset that dares to take risks. This inspiring autobiography takes you into the operating room to witness surgeries that made headlines around the world --- and into the private mind of a compassionate, God-fearing

physician who lives to help others. Through it all shines a humility, quick wit, and down-to-earth style that make this book one you won't easily forget.

Spare Parts - Joshua Davis 2014-12-02

Four undocumented Mexican American students, two great teachers, one robot-building contest . . . and a major motion picture In 2004, four Latino teenagers arrived at the Marine Advanced Technology Education Robotics Competition at the University of California, Santa Barbara.

They were born in Mexico but raised in Phoenix, Arizona, where they attended an underfunded public high school. No one had ever suggested to Oscar, Cristian, Luis, or Lorenzo that they might amount to much—but two inspiring science teachers had convinced these impoverished, undocumented kids from the desert who had never even seen the ocean that they should try to build an underwater robot. And build a robot they did. Their robot wasn't pretty, especially compared to those of the competition. They were going up against some of the best collegiate engineers in the country, including a team from MIT backed by a \$10,000 grant from ExxonMobil. The Phoenix teenagers had scraped together less than \$1,000 and built their robot out of scavenged parts. This was never a level competition—and yet, against all odds . . . they won! But this is just the beginning for these four, whose story—which became a key inspiration to the DREAMers

movement—will go on to include first-generation college graduations, deportation, bean-picking in Mexico, and service in Afghanistan. Joshua Davis's Spare Parts is a story about overcoming insurmountable odds and four young men who proved they were among the most patriotic and talented Americans in this country—even as the country tried to kick them out.

Running with Scissors - Augusten Burroughs
2010-04-01

Now including an excerpt from *Lust & Wonder*, a new memoir coming in March 2016.

Running with Scissors is the true story of a boy whose mother (a poet with delusions of Anne Sexton) gave him away to be raised by her psychiatrist, a dead-ringer for Santa and a lunatic in the bargain.

Suddenly, at age twelve, Augusten Burroughs found himself living in a dilapidated

Victorian in perfect squalor.

The doctor's bizarre family, a few patients, and a pedophile living in the backyard shed completed the tableau. Here, there were no rules, there was no school. The Christmas tree stayed up until summer, and Valium was eaten like Pez. And when things got dull, there was always the vintage electroshock therapy machine under the stairs.... *Running with Scissors* is at turns foul and harrowing, compelling and maniacally funny. But above all, it chronicles an ordinary boy's survival under the most extraordinary circumstances.

In pursuit of the wild, solitary, predatory octopus, popular naturalist Sy Montgomery has practiced true immersion journalism. From New England aquarium tanks to the reefs of French Polynesia and the Gulf of Mexico, she has

befriended octopuses with strikingly different personalities—gentle Athena, assertive Octavia, curious Kali, and joyful Karma. Each creature shows her cleverness in myriad ways: escaping enclosures like an orangutan; jetting water to bounce balls; and endlessly tricking companions with multiple “sleights of hand” to get food. Scientists have only recently accepted the intelligence of dogs, birds, and chimpanzees but now are watching octopuses solve problems and are trying to decipher the meaning of the animal’s color-changing techniques. With her “joyful passion for these intelligent and fascinating creatures” (Library Journal Editors’ Spring Pick), Montgomery chronicles the growing appreciation of this mollusk as she tells a unique love story. By turns funny, entertaining, touching, and profound, *The Soul of an Octopus* reveals what octopuses can teach us about the meeting of two very different minds.
