Each regional anatomy chapter consists of four consecutive sections: conceptual overview, regional anatomy, surface anatomy, and clinical cases. The Second South Asia Edition of this textbook has two volumes: Volume One—The Body, Upper Limb, Lower Limb, Abdomen, Pelvis and Perineum; and Volume Two—Thorax, Back, Head and Neck, and Neuroanatomy. New content has been added on the basis of updates in the Fourth International Edition, including the addition of a new chapter on neuroanatomy. The innovative features of the First South Asia Edition such as Set Inductions, Outlines, and Flowcharts have been improved. Students are encouraged to use online resources available on MedEnact. A unique feature of this edition is that each chapter contains line diagrams, abbreviated as LDs, along with questions and answers. These line diagrams are sketches
