## **The Freedom Principle** - John Litweiler

1990-03-21

Ornette Coleman's discovery some thirty years ago that his band's music was indeed a "free thing" marked the beginning of a revolution in

jazz. From the early free-form experiments, Coleman's dancing blues, and John Coltrane's saxophone cries and sheets of sound, to the brittle, melancholy modes of Miles Davis, vibrant, sophisticated new jazz idioms

proliferated. In this critical and historical survey of today's jazz, noted critic John Litweiler traces the evolution of the new music through such artists as Coleman, Coltrane, Davis, Cecil Taylor, Eric Dolphy, Sun Ra, Albert Ayler, Anthony Braxton, and others. He also addresses questions such as: Is Free jazz a rejection of the jazz tradition? Are European folk classical musics altering this essentially Afro-American art? Do the principles of Free jazz provide real emotional liberation for the creative musician? This is a solid, informed guide—for new jazz fans and serious listeners alike—to what has, in many ways, been the most productive and most controversial period in the history of jazz.

**Make It New** - Bill Beuttler 2019-10-01

As jazz enters its second century it is reasserting itself as dynamic and relevant. Boston Globe jazz writer and Emerson College professor Bill Beuttler reveals new ways in which jazz is engaging with society through the vivid biographies and music of Jason Moran, Vijay Iyer, Rudresh Mahanthappa, The Bad Plus, Miguel Zenón, Anat Cohen, Robert Glasper, and Esperanza Spalding. These musicians are freely incorporating other genres of music into jazz—from classical (both western and Indian) to popular (hip-hop, R&B, rock, bluegrass, klezmer,

Brazilian choro)—and other art forms as well (literature, film, photography, and other visual arts). This new generation of jazz is increasingly more international and is becoming more open to women as instrumentalists and bandleaders. Contemporary jazz is reasserting itself as a force for social change, prompted by developments such as the Black Lives Matter, #MeToo movements, and the election of Donald Trump. Yes to the Mess - Frank J. Barrett 2012-07-24 What Duke Ellington and Miles Davis teach us about leadership How do you cope when faced with complexity and constant change at work? Here's what the world's best leaders and teams do: they improvise. They invent novel responses and take calculated risks without a scripted plan or a safety net that guarantees specific outcomes. They negotiate with each other as they proceed, and they don't dwell on mistakes or stifle each other's ideas. In short, they say "yes to the mess" that is today's hurried, harried, yet enormously innovative and fertile

world of work. This is exactly what great jazz musicians do. In this revelatory book, accomplished jazz pianist and management scholar Frank Barrett shows how this improvisational “jazz mind-set” and the skills that go along with it are essential for effective leadership today. With fascinating stories of the insights and innovations of jazz greats such as Miles Davis and Sonny Rollins, as well as probing accounts of the wisdom gleaned from his own experience as a jazz musician, Barrett introduces a new model for leading and collaborating in organizations. He describes how, like skilled jazz players, leaders need to master the art of unlearning, perform and experiment simultaneously, and take turns soloing and supporting each other. And with examples that range from manufacturing to the military to high-tech, he illustrates how organizations must take an inventive approach to crisis management, economic volatility, and all the rapidly evolving realities of our globally

connected world. Leaders today need to be expert improvisers. Yes to the Mess vividly shows how the principles of jazz thinking and jazz performance can help anyone who leads teams or works with them to develop these critical skills, wherever they sit in the organization. Engaging and insightful, Yes to the Mess is a seminar on collaboration and complexity, against the soulful backdrop of jazz.

Unsung - Chatradari Devroop 2007-10-01

In recent years, several texts have been published on South African jazz by various authors, but attention has been focused largely on the musicians who went into exile. Unsung is a book on jazz in our country, but from the performer's perspective. The musicians featured are the musicians who stayed. These men have had rich, enriching lives, and the best way to explore their story would be to give them the opportunity to tell it themselves.

**Confess** - Rob Halford 2020-09-29

The legendary frontman of Judas Priest, one of

the most successful heavy metal bands of all time, celebrates five decades of heavy metal in this tell-all memoir. Most priests hear confessions. This one is making his. Rob Halford, front man of global iconic metal band Judas Priest, is a true "Metal God." Raised in Britain's hard-working, heavy industrial heartland, he and his music were forged in the Black Country. Confess, his full autobiography, is an unforgettable rock 'n' roll story—a journey from a Walsall council estate to musical fame via alcoholism, addiction, police cells, ill-fated sexual trysts, and bleak personal tragedy, through to rehab, coming out, redemption . . . and finding love. Now, he is telling his gospel truth. Told with Halford's trademark self-deprecating, deadpan Black Country humor, Confess is the story of an extraordinary five decades in the music industry. It is also the tale of unlikely encounters with everybody from Superman to Andy Warhol, Madonna, Jack Nicholson, and the Queen. More than anything

else, it's a celebration of the fire and power of heavy metal. Rob Halford has decided to Confess. Because it's good for the soul. Named one of the Best Music Books of 2020 by Rolling Stone and Kirkus Reviews  
*Sophisticated Giant* - Maxine Gordon 2020-09-15  
Tenor saxophonist Dexter Gordon was one of the major innovators of modern jazz. In a context of biography, history, and memoir, Maxine Gordon has completed the book that her late husband began, weaving his "solo" turns with her voice and a chorus of voices from past and present. She shows that his image of the cool jazzman fails to come to terms with the three-dimensional man full of humor and wisdom, a figure who struggled to reconcile being both a creative outsider who broke the rules and a comforting insider who was a son, father, husband, and world citizen. --

**Jazz Icons** - Tony Whyton 2013-01-17

Today, jazz history is dominated by iconic figures who have taken on an almost God-like

status. From Satchmo to Duke, Bird to Trane, these legendary jazzmen form the backbone of the jazz tradition. Jazz icons not only provide musicians and audiences with figureheads to revere but have also come to stand for a number of values and beliefs that shape our view of the music itself. Jazz Icons explores the growing significance of icons in jazz and discusses the reasons why the music's history is increasingly dependent on the legacies of 'great men'. Using a series of individual case studies, Whyton examines the influence of jazz icons through different forms of historical mediation, including the recording, language, image and myth. The book encourages readers to take a fresh look at their relationship with iconic figures of the past and challenges many of the dominant narratives in jazz today.

French Music and Jazz in Conversation -

Deborah Mawer 2014-12-04

French concert music and jazz often enjoyed a special creative exchange across the period 1900–65. French modernist composers were particularly receptive to early African-American jazz during the interwar years, and American jazz musicians, especially those concerned with modal jazz in the 1950s and early 1960s, exhibited a distinct affinity with French musical impressionism. However, despite a general, if contested, interest in the cultural interplay of classical music and jazz, few writers have probed the specific French music-jazz relationship in depth. In this book, Deborah Mawer sets such musical interplay within its

historical-cultural and critical-analytical contexts, offering a detailed yet accessible account of both French and American perspectives. Blending intertextuality with more precise borrowing techniques, Mawer presents case studies on the musical interactions of a wide range of composers and performers, including Debussy, Satie, Milhaud, Ravel, Jack Hylton, George Russell, Bill Evans and Dave Brubeck.

Norman Granz - Tad Hershorn 2011-10-17

"Any book on my life would start with my basic philosophy of fighting racial prejudice. I loved jazz, and jazz was my way of doing that," Norman Granz told Tad Hershorn during the final interviews given for this book. Granz, who died in 2001, was iconoclastic, independent, immensely influential, often thoroughly unpleasant—and one of jazz's true giants. Granz played an essential part in bringing jazz to audiences around the world, defying racial and social prejudice as he did so, and demanding that African-American performers be treated equally everywhere they toured. In this

definitive biography, Hershorn recounts Granz's story: creator of the legendary jam session concerts known as Jazz at the Philharmonic; founder of the Verve record label; pioneer of live recordings and worldwide jazz concert tours; manager and recording producer for numerous stars, including Ella Fitzgerald and Oscar Peterson.

Jazz Styles - Mark C. Gridley 1997

**Space Is the Place** - John Szwed 2020-04-30  
Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and

confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

**Miles, Ornette, Cecil** - Howard Mandel  
2010-04-26

Miles Davis, Ornette Coleman, and Cecil Taylor revolutionized music from the end of the twentieth century into the twenty-first, expanding on jazz traditions with distinctly new concepts of composition, improvisation, instrumentation, and performance. They remain figures of controversy due to their border-crossing processes. Miles, Ornette, Cecil is the first book to connect these three icons of the avant-garde, examining why they are lionized by some critics and reviled by others, while influencing musicians across such divides as genre, geography, and racial and ethnic backgrounds. Mandel offers fresh insights into their careers from interviews with all three

artists and many of their significant collaborators, as well as a thorough overview of earlier interpretations of their work.

**The Jazz Masters** - Peter C. Zimmerman

2021-11-01

The Jazz Masters: Setting the Record Straight is a celebration of jazz and the men and women who created and transformed it. In the twenty-one conversations contained in this engaging and highly accessible book, we hear from the musicians themselves, in their own words, direct and unfiltered. Peter Zimmerman's interviewing technique is straightforward. He turns on a recording device, poses questions, and allows his subjects to improvise, similar to the way the musicians do at concerts and in recording sessions. Topics range from their early days, their struggles and victories, to the impact the music has had on their own lives. The interviews

have been carefully edited for sense and clarity, without changing any of the musicians' actual words. Peter Zimmerman tirelessly sought virtuosi whose lives span the twentieth and twenty-first centuries. The reader is rewarded with an intimate look into the past century's extraordinary period of creative productivity. The oldest two interview subjects were born in 1920 and all are professional musicians who worked in jazz for at least five decades, with a few enjoying careers as long as seventy-five years. These voices reflect some seventeen hundred years of accumulated experience yielding a chronicle of incredible depth and scope. The focus on musicians who are now emeritus figures is deliberate. Some of them are now in their nineties; six have passed since 2012, when Zimmerman began researching *The Jazz Masters*. Five of them have already received the NEA's prestigious Jazz Masters award: Sonny Rollins, Clark Terry, Yusef Lateef, Jimmy Owens, and most recently, Dick Hyman. More

undoubtedly will one day, and the balance are likewise of compelling interest. Artists such as David Amram, Charles Davis, Clifford Jordan, Valery Ponomarev, and Sandy Stewart, to name a few, open their hearts and memories and reveal who they are as people. This book is a labor of love celebrating the vibrant style of music that Dizzy Gillespie once described as "our native art form." Zimmerman's deeply knowledgeable, unabashed passion for jazz brings out the best in the musicians. Filled with personal recollections and detailed accounts of their careers and everyday lives, this highly readable, lively work succeeds in capturing their stories for present and future generations. An important addition to the literature of music, *The Jazz Masters* goes a long way toward "setting the record straight."

Jazz is - Nat Hentoff 1992

This book is a selective tribute and guide to the jazz life, the players, and the music. It is not a chronological or comprehensive history, but rather a personal exploration through variegated seminal figures of a nature of the music (and how it keeps changing). And it is about the nature of those who make the music - temperaments as disparate as those of Louis Armstrong and Charlie Parker. It tells, too, of the political economy of jazz, its internationalization, the continuing surprises of its futher frontiers.

**Led Zeppelin's Led Zeppelin IV** - Erik Davis 2005-02-18

In this wickedly entertaining and thoroughly informed homage to one of rock music's towering pinnacles, Erik Davis investigates the magic—black or otherwise—that surrounds this album. Carefully peeling the layers from each

song, Davis reveals their dark and often mystical roots—and leaves the reader to decide whether [FOUR SYMBOLS] is some form of occult induction or just an inspired, brilliantly played rock album. Excerpt: Stripping Led Zeppelin's famous name off the fourth record was an almost petulant attempt to let their Great Work symbolically stand on its own two feet. But the wordless jacket also lent the album charisma. Fans hunted for hidden meanings, or, in failing to find them, sensed a strange reflection of their own mute refusal to communicate with the outside world. This helped to create one of the supreme paradoxes of rock history: an esoteric megahit, a blockbuster arcanum. Stripped of words and numbers, the album no longer referred to anything but itself: a concrete talisman that drew you into its world, into the frame. All the stopgap titles we throw at the thing are lame: Led Zeppelin IV, [Untitled], Runes, Zoso, Four Symbols. In an almost Lovecraftian sense, the album was nameless, a

thing from beyond, charged with manna. And yet this uncanny fetish was about as easy to buy as a jockstrap.
