How to Become a Straight-A Student - Cal Newport 2006-12-26

Looking to jumpstart your GPA? Most college students believe that straight A's can be achieved only through cramming and painful all-nighters at the library. But Cal Newport knows that real straight-A students don't study harder—they study smarter. A breakthrough approach to acing academic assignments, from quizzes and exams to essays and papers, *How to Become a Straight-A Student* reveals for the first time the proven study secrets of real straight-A students across the country and weaves them into a simple, practical system that anyone can master. You will learn how to:

- Streamline and maximize your study time
- Conquer procrastination
- Absorb the material quickly and effectively
- Know which reading assignments are critical—and which are not
- Target the paper topics that wow professors
- Provide A+ answers on exams
- Write stellar prose without the agony

A strategic blueprint for success that promises more free time, more fun, and top-tier results, *How to Become a Straight-A Student* is the only study guide written by

students for students—with the insider knowledge and real-world methods to help you master the college system and rise to the top of the class.

The Times Index - 1999

Indexes the Times, Sunday times and magazine, Times literary supplement, Times educational supplement, Times educational supplement Scotland, and the Times higher education supplement.

Corporate Finance Law - Louise Gullifer 2015-10-22

The second edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law. Fully updated, it reflects developments in the law and the markets in the continuing aftermath of the Global Financial Crisis. One of its distinctive features is that it gives equal coverage to both the equity and debt sides of corporate finance law, and seeks, where possible, to compare the two. This book covers a broad range of topics regarding the debt and equity-raising choices of companies of all sizes, from SMEs to the largest publicly traded enterprises, and the mechanisms by which those providing capital are protected. Each chapter analyses the present law critically so as to enable the

reader to understand the difficulties, risks and tensions in this area of law, and the attempts made by the legislature and the courts, as well as the parties involved, to deal with them. This book will be of interest to practitioners, academics and students engaged in the practice and study of corporate finance law.
