Urbanisation, traffic congestion, pollution problems, heavy reliance on scarce oil supplies, safety issues and ever-growing competition, have all provided significant business challenges for the automotive industry. Many car

Auto Brand provides a roadmap to branding and marketing success in the automotive industry from a leading industry expert and features:

- Case studies on major car brands personally conducted by the author including: Audi, BMW, Holden, Mercedes-Benz, Opel, Porsche, Saab, Seat, Skoda, Vauxhall, Volkswagen, and Volvo
- The findings from 100 interviews conducted with CEOs, marketing managers, sales managers, sales people, after sales managers at all levels from the manufacturer level to small rural dealers, as well as industry experts, policy makers, free-stranding repair shops and professional organizations
- The results of a new international study on car buyer behaviour based on 4,700 survey answers

Auto Brand is essential reading for marketing managers, sales managers, CEOs, development managers and dealers in all types of companies in the car industry including: manufacturers, national sales companies/importers, dealers, finance companies, insurance companies, free-standing repair shop channels and more.
