Kill the Company - Lisa Bodell 2016-10-21

In the ever-changing world of business, we've arrived at a point where process has trumped culture, where the race toward efficiency has left us unable to reach our potential. Stuck in the land of status quo, we've forgotten how to think. The very structures put in place to help businesses grow are now holding us back;; it's time to Kill the Company. This book is a call to arms: to start a revolution in how we think and work. But instead of more one-size-fits-all change initiatives forced upon employees, we need to embrace small changes that create ripple effects throughout the organization. Lisa Bodell urges companies to move from "Zombies,

Inc." to "Think, Inc." Thinking can no longer be exclusive to the creative team or lead strategists. A culture of curiosity must be fostered among the ranks to shake up our standard practices, from unproductive meetings to go-nowhere strategic planning. This revolution can and will awaken our ability to think, and ultimately, to innovate and grow.

Evergreen - Kirsten Robison 2019-04-10

Educated - Tara Westover 2018-02-20

#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER

• One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara

Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times

Introduction to Psychology from a Christian Worldview - Shawn George 2021-05-30

An introductory psychology textbook designed to familiarize students with the science and practice of psychology while also equipping them to critically analyse research and theory. In addition, the book also presents students with a

Biblical foundation from which to evaluate research and grow in their understanding of human behaviour.

Mindsapes: Critical Reading Skills and Strategies - Christine Evans Carter 2013-01-01
Developed for students at the 10-12 reading level, MINDSCAPES: CRITICAL READING SKILLS AND STRATEGIES, 2E helps students become stronger readers based on how the brain best processes and learns information. Christine Evans Carter has developed a powerful approach to building reading skills that is based on the latest research in brain-based learning; when students recognize the structure and organization of information, they maximize their learning power. This focus on text structure provides a scaffold onto which developmental-level readers can apply new knowledge. Information is presented in a carefully crafted sequence that serves to build upon prior knowledge and expand understanding of skills and strategies in a recursive manner. In

addition, each chapter includes study skills and discipline-specific vocabulary and reading strategies to help students succeed in all of their courses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Humanities Through the Arts - F. David Martin
2023

"The Humanities through the Arts, tenth edition, explores the humanities with an emphasis on the arts. Examining the relationship of the humanities to values, objects, and events important to people is central to this book. We make a distinction between artists and other humanists: Artists reveal values, while other humanists examine or reflect on values. We study how values are revealed in the arts while keeping in mind a basic question: "What is art?" Judging by the existence of ancient artifacts, we see that artistic expression is one of the most fundamental human activities. It binds us

together as a people by revealing the most important values of our culture"--

A Guide to Faculty Development - Kay J. Gillespie 2010-02-18

Since the first edition of *A Guide to Faculty Development* was published in 2002, the dynamic field of educational and faculty development has undergone many changes. Prepared under the auspices of the Professional and Organizational Development Network in Higher Education (POD), this thoroughly revised, updated, and expanded edition offers a fundamental resource for faculty developers, as well as for faculty and administrators interested in promoting and sustaining faculty development within their institutions. This essential book offers an introduction to the topic, includes twenty-three chapters by leading experts in the field, and provides the most relevant information on a range of faculty development topics including establishing and sustaining a faculty development program; the key issues of

assessment, diversity, and technology; and faculty development across institutional types, career stages, and organizations. "This volume contains the gallant story of the emergence of a movement to sustain the vitality of college and university faculty in difficult times. This practical guide draws on the best minds shaping the field, the most productive experience, and elicits the imagination required to reenvision a dynamic future for learning societies in a global context." —R. Eugene Rice, senior scholar, Association of American Colleges and Universities "Across the country, people in higher education are thinking about how to prepare our graduates for a rapidly changing world while supporting our faculty colleagues who grew up in a very different world. Faculty members, academic administrators, and policymakers alike will learn a great deal from this volume about how to put together a successful faculty development program and create a supportive environment for learning in challenging times." —Judith A.

Ramaley, president, Winona State University "This is the book on faculty development in higher education. Everyone involved in faculty development—including provosts, deans, department chairs, faculty, and teaching center staff—will learn from the extensive research and the practical wisdom in the Guide." —Peter Felten, president, The POD Network (2010-2011), and director, Center for the Advancement of Teaching and Learning, Elon University

Everyday Use - Alice Walker 1994

Presents the text of Alice Walker's story "Everyday Use"; contains background essays that provide insight into the story; and features a selection of critical response. Includes a chronology and an interview with the author. *Human Development: A Life-Span View* - Robert V. Kail 2015-01-01

Balanced coverage of the entire life span is just one thing that distinguishes HUMAN DEVELOPMENT: A LIFE-SPAN VIEW, Seventh

Edition. With its comprehensive, succinct, and applied coverage, the text has proven its ability to capture students' interest while introducing them to the issues, forces, and outcomes that make us who we are. Robert V. Kail's expertise in childhood and adolescence, combined with John C. Cavanaugh's extensive research in gerontology, result in a book with a rich description of all life-span stages and important topics. A modified chronological approach traces development in sequential order from conception through late life, while also dedicating several chapters to key topical issues. This organization also allows the book to be relatively briefer than other texts, a benefit given the enormous amount of information covered in the course. The authors provide theoretical and empirical foundations that enable students to become educated, critical interpreters of developmental information. A blend of basic and applied research, as well as coverage of controversial topics and emergent

trends, demonstrates connections between the laboratory and life. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Adolescence and Emerging Adulthood -

Jeffrey Jensen Arnett 2012-07

Helps students understand how culture impacts development in adolescence and emerging adulthood. Grounded in a global cultural perspective (within and outside of the US), this text enriches the discussion with historical context and an interdisciplinary approach, including studies from fields such as anthropology and sociology, in addition to the compelling psychological research on adolescent development. This book also takes into account the period of "emerging adulthood" (ages 18-25), a term coined by the author, and an area of study for which Arnett is a leading expert. Arnett continues the fifth edition with new and updated studies, both U.S. and international. With

Pearson's MyDevelopmentLab Video Series and Powerpoints embedded with video, students can experience a true cross-cultural experience. A better teaching and learning experience This program will provide a better teaching and learning experience-- for you and your students. Here's how: Personalize Learning - The new MyDevelopmentLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Improve Critical Thinking - Students learn to think critically about the influence of culture on development with pedagogical features such as Culture Focus boxes and Historical Focus boxes. Engage Students - Arnett engages students with cross cultural research and examples throughout. MyVirtualTeen, an interactive simulation, allows students to apply the concepts they are learning to their own "virtual teen."

Explore Research - "Research Focus" provides students with a firm grasp of various research methods and helps them see the impact that methods can have on research findings. Support Instructors - This program provides instructors with unbeatable resources, including video embedded PowerPoints and the new MyDevelopmentLab that includes cross-cultural videos and MyVirtualTeen, an interactive simulation that allows you to raise a child from birth to age 18. An easy to use Instructor's Manual, a robust test bank, and an online test generator (MyTest) are also available. All of these materials may be packaged with the text upon request. Freedom on My Mind, Volume 1 - Deborah Gray White 2016-09-09

Freedom on My Mind is Bedford/St. Martin's African American history survey textbook that follows the tradition of Calloway's First Peoples and DuBois and Dumenil's Through Women's Eyes in combining historical narrative and primary sources in one book. Each chapter includes a document project based on a theme or event that challenges students to analyze the sources and consider them within the context of the history they just read. Authored by a team of respected historians and teachers, Freedom on My Mind presents African American history from the early slave trade in Africa through the present day and tells the African American story within the larger context of United States history.

Psychology - Wayne Weiten 2011

In PSYCHOLOGY: THEMES AND VARIATIONS, BRIEFER VERSION, Wayne Weiten continues his proven combination of a scientifically rigorous text with selective pedagogy that makes learning easy for students. Weiten's approach is backed by a straightforward writing style, unparalleled in-text visuals and didactic art program, and in-book review to help users prioritize and retain the core concepts. Weiten surveys psychology's broad range of content with three aims: to illuminate the process of research and its intrinsic relationship to application (themes); to show both the unity and diversity of the subject (variations), and to invite users to the study of psychology by respecting their ability to master its fundamental concepts. Weiten's themes (including empiricism, theoretical diversity, sociohistorical contexts, multifactorial causation, cultural heritage, heredity and environment, and subjectivity of experience) and variations provide unifying threads across chapters that help users see the

connections among different research areas in psychology.

School to Career - J. J. Littrell 2013-03-05

The 10th edition of School to Career builds on what made the previous editions so successful. Students explore careers using the career clusters and pathways framework; understand workplace expectations; develop career-readiness skills; and plan for life beyond graduation. School to Career provides students with the “how to” needed for preparing a résumé, searching for a job, taking on a work-based learning experience, exceeding employer expectations, managing personal finances, and funding postsecondary training and education. Case studies are used to examine challenges students may encounter in the world of work. • Communication, math, and technology skills are developed through activities and useful examples. • Each chapter provides insights on ethics and on using natural resources wisely. • Self-assessment opportunities help focus

attention on the acquisition of key concepts.

Agency: Moral Identity and Free Will - David Weissman 2020-04-01

There is agency in all we do: thinking, doing, or making. We invent a tune, play, or use it to celebrate an occasion. Or we make a conceptual leap and ask more abstract questions about the conditions for agency. They include autonomy and self-appraisal, each contested by arguments immersing us in circumstances we don't control. But can it be true we that have no personal responsibility for all we think and do? Agency: Moral Identity and Free Will proposes that deliberation, choice, and free will emerged within the evolutionary history of animals with a physical advantage: organisms having cell walls or exoskeletons had an internal space within which to protect themselves from external threats or encounters. This defense was both structural and active: such organisms could ignore intrusions or inhibit risky behavior. Their capacities evolved with time: inhibition became

the power to deliberate and choose the manner of one's responses. Hence the ability of humans and some other animals to determine their reactions to problematic situations or to information that alters values and choices. This is free will as a material power, not as the conclusion to a conceptual argument. Having it makes us morally responsible for much we do. It prefigures moral identity. Closely argued but plainly written, *Agency: Moral Identity and Free Will* speaks for autonomy and responsibility when both are eclipsed by ideas that embed us in history or tradition. Our sense of moral choice and freedom is accurate. We are not altogether the creatures of our circumstances.

Lifespan Development 3e Australasian -

Michele Hoffnung 2015-07-03

Lifespan Development, Third Australasian edition, explores human physical, cognitive and social development within an Australian and New Zealand context. Building on the successful first and second editions, the resource's

comprehensive theory coverage includes the latest local and international research in this ever-evolving field, and is perfectly complemented by numerous physical and mental health applications within local psychological, allied health and educational settings. This edition includes enhanced coverage of developmental theories, and increased integrated coverage of cross-cultural and Indigenous issues unique to the multicultural societies of Australia and New Zealand. It is an ideal resource offering for undergraduate students in both countries in order to enhance understanding of human development -- from conception through to the end of life.

The Life Span - Patricia C. Broderick 2014-01-08

The Life Span: Human Development for Helping Professionals, 4/e, provides an in-depth look at the science of human development, highlighting theories and research that have useful applications for individuals working in fields such as education, counseling, and social work.

The main purpose of this book is to provide the reader with information that can be translated into professional “best practice” applications. Throughout, the text reflects the contemporary view that life span development is a process deeply embedded within and inseparable from the context of family, social network, and culture. Because the book is designed for graduate students, most topics, especially those that have special relevance to helping professionals, are covered in greater depth than in a typical life span text. The expanded coverage of research in these areas will enhance students' understanding of the scientific basis for application to practice. From reviews of the book: “This book is unique in that it is research-based, includes comprehensive coverage of important course topics, and offers helping professionals information about human development that will enhance service provision to clients across the lifespan.” --Mary M. Chittooran, Saint Louis University “The writing

style is clear, interesting and engaging and is at a level appropriate for my students. Nicely done. . . . [The] case studies [and] developmental psychopathology sections are strengths. . . . [The book is] well organized, well-written, broad-based . . . , [and] insightful. [I] especially liked the authors' focus on practical and applied therapies, as well as their emphasis on research-based therapies that incorporate sound principles of human developmental.” --Rosalie A. Rohm, Ball State University “This readable, well organized text addresses the depth and scope of development. The text extends students knowledge of the material by providing a wealth of applicable information for those who are or will be in a helping profession. . . . [Compared to other available texts, this one is] far superior in terms of the balance of scope and depth.” --Kathryn Cooper, Northern Colorado University New Interactive, Multimedia Learning Features in the Video-Enhanced Pearson eText: o See real examples. Embedded videos illustrate and

explain key concepts and show individuals addressing the challenges of that period of the life span. (See pages 334, 342, and 353 for examples.) o Practice applying chapter content. The Practice Using What You've Learned feature includes scaffolded video and print case exercises that challenge readers to analyze and apply chapter content. Sample responses are available through the enhanced text. (See page 366 for examples.) See how to work with people at different stages of the lifespan. Applications sections blend empirically supported information about treatments with the issues covered in each chapter, offering extensive discussion of how developmental science can inform practice. These include topics such as adolescent health and well-being, new approaches to maternity care, new interventions for promoting secure infant attachments, encouraging learning through play, helping parents avoid corporal punishment, and mindfulness-based practices, among many others. (See 357-360 for an

example.)

McMinn 2012-03-19

The American Association of Christian Counselors and Tyndale House Publishers are committed to ministering to the spiritual needs of people. This book is part of the professional series that offers counselors the latest

techniques, theory, and general information that is vital to their work. While many books have tried to integrate theology and psychology, this book takes another step and explores the importance of the spiritual disciplines in psychotherapy, helping counselors to integrate the biblical principles of forgiveness, redemption, restitution, prayer, and worship into their counseling techniques. Since its first publication in 1996, this book has quickly become a contemporary classic—a go-to handbook for integrating what we know is true from the disciplines of theology and psychology and how that impacts your daily walk with God. This book will help you integrate spiritual disciplines—such as prayer, Scripture reading, confession—into your own life and into counseling others. Mark R. McMinn, Ph.D., is professor of psychology at Wheaton College Graduate School in Wheaton, Illinois, where he directs and teaches in the Doctor of Psychology program. A diplomate in Clinical Psychology of

the American Board of Professional Psychology, McMinn has thirteen years of postdoctoral experience in counseling, psychotherapy, and psychological testing. McMinn is the author of *Making the Best of Stress: How Life's Hassles Can Form the Fruit of the Spirit*; *The Jekyll/Hyde Syndrome: Controlling Inner Conflict through Authentic Living*; *Cognitive Therapy Techniques in Christian Counseling*; and *Christians in the Crossfire* (written with James D. Foster). He and his wife, Lisa, have three daughters.

Winning at Retirement - Patrick Foley
2018-09-28

About half of American retirees describe their post-work years as the best time of their life. *Winning at Retirement* is a step-by-step guide to ending up among that happy half. Authors Pat Foley and Kristin Hillsley take a practical, inspirational, and entertaining look at the process of seeking happiness in the last-and potentially best-period of life. *Winning* offers plain language advice on matters like Social

Security, Medicare, and investing. But it also emphasizes the importance of seeking a meaningful identity in the senior years, and describes how to do so. What truly sets the book apart is the crafting of a Retirement Happiness Map, a simple but powerful method for planning all aspects of a blissful retirement. Today's retirees are plugged-in. They have smart phones, are internet savvy, and follow their grandchildren on Facebook. Winning takes a thoroughly modern look at the subject, describing web tools, apps, TED talks, and the vast world of resources that are at your fingertips in a quest for financial stability, health, and purpose. Step inside, you won't be disappointed.

Learning Technology for Education Challenges - Lorna Uden 2018-07-30

This book constitutes the refereed proceedings of the 7th International Workshop on Learning Technology for Education Challenges, LTEC 2018, held in Žilina, Slovakia, in August 2018.

The 25 revised full papers presented were carefully reviewed and selected from 54 submissions. The papers are organized in the following topical sections: Gamification and learning; learning and knowledge transfer; learning technologies applications; virtual learning environments; and mobile learning and MOOCs. LTEC 2018 examines how these technologies and pedagogical advances can be used to change the way teachers teach and students learn, while giving special emphasis to the pedagogically effective ways we can harness these new technologies in education.

Object-Oriented Programming Languages and Event-Driven Programming - Dorian P. Yeager 2012-12-15

Essential concepts of programming language design and implementation are explained and illustrated in the context of the object-oriented programming language (OOPL) paradigm. Written with the upper-level undergraduate student in mind, the text begins with an

introductory chapter that summarizes the essential features of an OOPL, then widens the discussion to categorize the other major paradigms, introduce the important issues, and define the essential terms. After a brief second chapter on event-driven programming (EDP), subsequent chapters are built around case studies in each of the languages Smalltalk, C++, Java, C#, and Python. Included in each case study is a discussion of the accompanying libraries, including the essential container classes. For each language, one important event-driven library is singled out and studied. Sufficient information is given so that students can complete an event-driven project in any of the given languages. After completing the course the student should have a solid set of skills in each language the instructor chooses to cover, a comprehensive overview of how these languages relate to each other, and an appreciation of the major issues in OOPL design. Key Features: • Provides essential coverage of

Smalltalk origins, syntax, and semantics, a valuable asset for students wanting to understand the hybrid Objective C language • Provides detailed case studies of Smalltalk, Java, C++, C#, and Python and features a side-by-side development of the Java and C++ languages--highlighting their similarities and differences • Sets the discussion in a historical framework, tracing the roots of the OOPLs back to Simula 67. • Provides broad-based coverage of all languages, imparting essential skills as well as an appreciation for each language's design philosophy • Includes chapter summary, review questions, chapter exercises, an appendix with event-driven projects, and instructor resources

Stolen Life - Yvonne Johnson 2012-07-31

"Written with primal intensity, touched with redeeming compassion, Rudy Wiebe--has explored our history, our roots and the secrets of our hearts with moral seriousness and great feeling." Governor General's Award for Fiction Citation, 1994 A powerful, major work of non-fiction, beautifully written, from the twice winner of the Governor General's Award for Fiction, and the great-great-granddaughter of Big Bear. This is a story about justice, and terrible injustices, a story about a murder, and a courtroom drama as compelling as any thriller as it unravels the events that put Yvonne Johnson behind bars for life, first in Kingston's Federal Prison for Women until the riot that closed it, and presently in the Okimaw Ochi Healing Lodge in the Cypress Hills. But above all it is the unforgettable true story of the life of a Native woman who has decided to speak out and break the silence, written with the redeeming

compassion that marks all Rudy Wiebe's writing, and informed throughout by Yvonne Johnson's own intelligence and poetic eloquence.

Characters and events spring to life with the vividness of fiction. The story is told sometimes in the first person by Rudy Wiebe, sometimes by Yvonne herself. He tracks down the details of Yvonne's early life in Butte, Montana, as a child with a double-cleft palate, unable to speak until the kindness of one man provided the necessary operations; the murder of her beloved brother while in police custody; her life of sexual abuse at the hands of another brother, grandfather and others; her escape to Canada - to Winnipeg and Wetaskiwin; the traumas of her life that led to alcoholism, and her slow descent into hell despite the love she found with her husband and three children. He reveals how she participated, with three others, in the murder of the man she believed to be a child abuser; he unravels the police story, taking us step by step, with jail-taped transcripts, through the police attempts to

set one member of the group against the others in their search for a conviction - and the courtroom drama that followed. And Yvonne openly examines her life and, through her grandmother, comes to understand the legacy she has inherited from her ancestor Big Bear; having been led through pain to wisdom, she brings us with her to the point where she finds spiritual strength in passing on the lessons and understandings of her life. How the great-great-granddaughter of Big Bear reached out to the author of *The Temptations of Big Bear* to help her tell her story is itself an extraordinary tale. The co-authorship between one of Canada's foremost writers and the only Native woman in Canada serving life imprisonment for murder has produced a deeply moving, raw and honest book that speaks to all of us, and gives us new insight into the society we live in, while offering a deeply moving affirmation of spiritual healing. *Microeconomics: An Intuitive Approach with*

Calculus - Thomas Nechyba 2016-01-01
Examine microeconomic theory as a way of looking at the world as MICROECONOMICS: AN INTUITIVE APPROACH WITH CALCULUS, 2E builds on the basic economic foundation of individual behavior. Each chapter contains two sections. The A sections introduce concepts using intuition, conversational writing, everyday examples, and graphs with a focus on mathematical counterparts. The B sections then cover the same concepts with precise, accessible mathematical analyses that assume one semester of single-variable calculus. The book offers flexible topical coverage with four distinct paths: a non-game theory path through microeconomics, a path emphasizing game theory, a path emphasizing policy issues, or a path focused on business. Readers can use B sections to explore topics in greater depth. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
