**Vajrayogini Sadhana & Commentary** - Geshe Ngawang Dhargyey 2019-01-01

Vajrayogini Sadhana and Commentary, a translation of an oral explanation given by Geshe Ngawang Dhargyey in Seattle, Washington, USA, in 1981. Traditionally, the practice of tantra is supposed to kept secret, and it is to be noted that this book is intended purely for those who have received the proper initiations. However, as His Holiness the Dalai Lama has advised, the great misunderstandings to which tantra is often subject to are more harmful than the partial lifting of such secrecy, so there is a necessity for books to be made available which contain authentic explanations. Venerable Geshe Ngawang Dhargyey was born in Kham Province of Tibet in 1928 and attended Sera Je Monastery. He escaped from Tibet in 1959 to India where he was able to continue teaching and meditating. He received his Geshe Lharampa degree in 1969. In 1971 His Holiness the Fourteenth Dalai Lama asked him to teach Dharma courses to westerners at the Library of Tibetan Works and Archives in Dharamsala. In 1986 he left for Dunedin, New Zealand, where he was the resident Spiritual Director at the Thargye Dharma Center until his death in 1996.

**The Films of Akira Kurosawa** - Donald Richie 1984-01

Film scholars and enthusiasts will welcome this new edition of Donald Richie's incomparable study, last

updated in 1984. The Method section, filmography, and bibliography contain new information, and Richie has added chapters on Ran, Dreams, Rhapsody in August, and Madadayo. Kurosawa's films display an extraordinary breadth and an astonishing strength, from the philosophic and sexual complexity of Rashomon to the moral dedication of Ikiru, from the naked violence of Seven Samurai to the savage comedy of Yojimbo, from the terror-filled feudalism of Throne of Blood to the piercing wit of Sanjuro. Running through all Kurosawa's work is a tough, humane, and profoundly ethical concern for the painful, beautiful, frequently ridiculous ambiguities of human life. Donald Richie's acclaimed study is as much a clear and winning introduction for those unfamiliar with Kurosawa's films as it is a bountiful critical appraisal for the initiate. Each film receives thorough sensitive examination, with many illustrations chosen by the author to underscore his analysis. Excerpts from the scripts, notes on camera usage and sound, reconstructions of outstanding moments - all these contribute insights into the director's powerful technique. In addition, Richie includes many quotes from his conversations with Kurosawa, allowing ideas and biographical information to emerge in the filmmaker's own words.

Jihadist terrorism has spread beyond the borders of the regions in which it had its origin and has reached a global dimension. Research and analysis of the root causes and underlying conditions, motivators and enablers of terrorism including the agitation propaganda of jihadist terrorists are vital to shaping appropriate countermeasures to the threat from Islamic terrorism. This paper looks at the jihadist use of strategic communication management techniques. The mass media and especially the Internet have become the key enablers and the main strategic communication assets for terrorists and have ensured them a favorable communication asymmetry.

**Persuasion in Public Discourse** - Jana Pelclová 2018-08-08

This book approaches persuasion in public discourse as a rhetorical phenomenon that enables the persuader to appeal to the addressee's intellectual and emotional capacities in a competing public environment. The aim is to investigate persuasive strategies from the overlapping perspectives of cognitive and functional linguistics. Both qualitative and quantitative analyses of authentic data (including English, Czech, Spanish, Slovene, Russian, and Hungarian) are grounded in the frameworks of functional grammar, facework and rapport management, classical rhetoric studies and multimodal discourse analysis and are linked to the constructs of (re)framing, conceptual metaphor and blending, mental space and viewpoint. In addition to traditional genres such as political speeches, news reporting, and advertising, the book also studies texts that examine book reviews, medieval medical recipes, public complaints or anonymous viral videos. Apart from discourse analysts, pragmatists and cognitive linguists, this book will appeal to cognitive musicologists, semioticians, historical linguists and scholars of related disciplines.

**Vajrayogini** - Elizabeth English 2013-02-08

Vajrayogini is a tantric goddess from the highest class of Buddhist tantras who manifests the ultimate development of wisdom and compassion. Her practice is prevalent today among practitioners of Tibetan Buddhism. This ground-breaking book delves into the origins of Vajrayogini, charting her evolution in India and examining her roots in the Cakrasamvara tantra and in Indian tradition relating to siva. The focus of this work is the Guhyasamayasadhanamala, a collection of forty-six sadhanas, or practice texts. Written on palm leaves in Sanskrit and preserved since the twelfth century, this diverse collection, composed by

various authors, reveals a multitude of forms of the goddess, each of which is described and illustrated here. One of the sadhanas, the Vajravarahi Sadhana by Umapatideva, depicts Vajrayogini at the center of a mandala of thirty-seven different goddesses, and is here presented in full translation alongside a Sanskrit edition. Elizabeth English provides extensive explanation and annotation of this representative text. Sixteen pages of stunning color plates not only enhance the study but bring the goddess to life.

Terrorists' Use of the Internet - M. Conway 2017-06-02

Terrorist use of the Internet has become a focus of media, policy, and scholarly attention in recent years. Terrorists use the Internet in a variety of ways, the most important being for propaganda purposes and operations-related content, but it is also potentially a means or target of attack. This book presents revised versions of a selection of papers delivered at the NATO Advanced Research Workshop (ARW) on 'Terrorists' Use of the Internet' held in Dublin, Ireland in June 2016. One aim of the workshop was to nurture dialogue between members of the academic, policy and practitioner communities, so the 60 delegates from 13 countries who attended the workshop included representatives from each of these. The participants encompassed a wide range of expertise (including engineering, computer science, law, criminology, political science, international relations, history, and linguistics) and the chapters contained herein reflect these diverse professional and disciplinary backgrounds. The workshop also aimed to address the convergence of threats. Following an introduction which provides an overview of the various ways in which terrorists use the Internet, the book's remaining 25 chapters are grouped into 5 sections on cyber terrorism and critical infrastructure protection; cyber-enabled terrorist financing; jihadi online propaganda; online counterterrorism; and innovative approaches and responses. The book will be of interest to all those who

need to maintain an awareness of the ways in which terrorists use the Internet and require an insight into how the threats posed by this use can be countered.
