Advances in Ergonomics In Design, Usability & Special Populations: Part I - Marcelo Soares 2022-07-19

Successful interaction with products, tools and technologies depends on usable designs and accommodating the needs of potential users without requiring costly training. In this context, this book is concerned with emerging ergonomics in design concepts, theories and applications of human factors knowledge focusing on the discovery, design and understanding of human interaction and usability issues with products and systems for their improvement. This book will be of special value to a large variety of professionals, researchers and students in the broad field of human modeling and performance who are interested in feedback of devices' interfaces (visual and haptic), user-centered design, and design for special populations, particularly the elderly. We hope this book is informative, but even more - that it is thought provoking. We hope it inspires, leading the reader to contemplate other questions, applications, and potential solutions in creating good designs for all.

Energy Independence - Christine Woodside 2008-12-16

Energy Independence is the essential guide to the most viable and affordable alternative energy solutions for the everyday consumer—including solar panels, wind generators, hydrogen fuel cells, wood, hydro-electric, geothermal heat pumps, and more. For all those seeking either to supplement their traditional fuel-burning furnace or to revamp their home, this book has what they need to get started. They'll learn about the most progressive and advanced options as well as tried and true energy conservation techniques. They'll learn how much each method costs, and how quickly they will recoup any investment. Also including a chapter on alternative-fuel cars, this book has been revised and updated with the most recent stats, technology, costs, and advice. It is a must for anyone—urbanite, suburbanite, or rural dweller—who relies on traditional oil-burning sources but has decided it's high time to be proactive both about cutting fuel costs and achieving freedom from fossil fuel dependence.
