The Managed Hand - Miliann Kang 2010-06-02

"This book is a must read for women's studies and sociology classes on labor, migration and gender as it provides its readers a rich and theoretically engaging discussion on feminine culture, the intersections of race, class, gender and migrant women's labor."—Rhacel Salazar Parreñas, Brown University "In *The Managed Hand*, Miliann Kang makes a significant contribution to the existing literature on Asian-American women, gender relations, service workers, beauty and the body. Based on fieldwork in nail salons, Kang reveals the social and emotional negotiations between and amongst women in that setting. We will never look at fingernails and what they tell us about ourselves in the same way again!"—Rebecca King-O'Riain, author of *Pure Beauty: Judging Race in Japanese American Beauty Pageants* "I enjoyed reading Kang's work so much that I felt disappointed when I finished. The book is a wonderful example of what sociology does best—i.e., skillfully examining a relatively small site of interest, such that the analysis speaks not only to matters of individual experience and identity, but also to those of broader social and cultural processes and structures."—Debra L. Gimlin, author of *Body Work: Beauty and Self-Image in American Culture* "How did manicured nails become such ubiquitous symbols of feminine status? In this innovative and compelling ethnography, Kang unravels the many social consequences of the polished nail, bringing together insights from care work, ethnic enclave entrepreneurship, and gender and migration scholarship to illuminate the growing sector of body labor. All those who would dismiss manicured nails as socially irrelevant should read this book!"—Pierrette Hondagneu-Sotelo, author of *Domestica: Immigrant Workers Cleaning and Caring in the Shadows of Affluence*

Reclaim California - Stan Statham 2017-03-13

Reclaim California is a modern day look at what has happened since California became America's thirty first state in 1850. Since then, there have been at least a couple of hundred attempts to make California smaller through dividing it into more than just one state. Today, the once golden state has a population larger than the entire country of Canada. As California's Governor Jerry Brown said way back in 1974, "Small is Beautiful." Now, Brown is back again in *The Barbering and Cosmetology Act* - California 2004

Becoming a Hairstylist - Kate Bolick 2019-04-02

Based on the real-life experiences of an expert in the field, an immersive, accessible guide to a career in hairstyling brought to life by acclaimed writer Kate Bolick—essential reading for anyone interested in this creative and dynamic profession. Gwenn LeMoine sees the world through the lens of hair. The daughter of two hairstylists, she has taken her natural talent to an entrepreneurial level and is now the owner of Parlor, a wildly popular, two-location hair salon in the East Village and Brooklyn. A pioneer with four decades of expertise in styling eccentric celebrity personalities, LeMoine works with clients such as such as Piper Kerman, Rue McClanahan, Molly Ringwald, Twyla Tharp, and William Wegman, to name only a few. Her work has also been featured on television (SNL, VH1, ETV), in magazines (Real Simple, Nylon, The New York Times, and Paste), and at awards shows, such as the Tonys and Emmys. In *Becoming a Hairstylist*, Atlantic columnist and New York Times notable author Kate Bolick provides a compelling profile of a career in hair styling through the life of LeMoine, and offers us a glance at a day in the life at Parlor. The perfect resource for anyone interested in a career in cosmetology, *Becoming a Hairstylist* portrays how to excel as a stylist—at any age and for all types of customers.

[Bottleneckers](#) - William Mellor 2016-12-13

Bottleneck (n): a person who advocates for the creation or perpetuation of government regulation, particularly an occupational license, to restrict entry into his or her occupation, thereby accruing an economic advantage without providing a benefit to consumers. The Left, Right, and Center all hate them: powerful special interests that use government power for their own private benefit. In an era when the Left hates "fat cats" and the Right despises "crony capitalists," now there is an artful and memorable one-word pejorative they can both get behind: bottleneckers. A "bottleneck" is anyone who uses government power to limit competition and thereby reap monopoly profits and other benefits. Bottleneckers work with politicians to constrict competition, entrepreneurial innovation, and opportunity. They thereby limit consumer choice; drive up consumer prices; and they support politicians who willingly overstep the constitutional limits of their powers to create, maintain, and expand these anticompetitive bottlenecks. The Institute for Justice's new book *Bottleneckers* coins a new word in the American lexicon, and provides a rich history and well-researched examples of bottleneckers in one occupation after another—from alcohol distributors to taxicab cartels—pointing the way to positive reforms.

[Spanish Translated Milady Standard Cosmetology](#) - Milady 2015-05-07

Milady has evolved for over 85 years to become what it is today, the cornerstone of beauty and wellness education. We are very excited and proud to announce the latest edition of Milady Standard Cosmetology, the most commonly used resource in cosmetology education. For decades since our first textbook published, it has been our commitment

to provide students with the foundation in the principles and skills needed to master the science and art of cosmetology, and with this latest version that commitment has not wavered. For the new edition, celebrity stylist Ted Gibson served as Creative Director on the project. The result is a brilliant new design with over 750 new photos and a gorgeous layout, providing a visually stunning resource to engage today's learner. We also recruited a team of twelve authors, made up of top professionals and educators in the industry, to provide the most current information on concepts and techniques. During our extensive peer review and development process, we were asked for a resource that placed emphasis on essential content needed for licensure success, and we feel confident that we delivered. Milady Standard Cosmetology will continue to be a source of education that students can count on, not only while in school, but throughout their careers. The Passion of Barbering - Dr. Charles H. Washington 2015-09-18

When Charles H. Washington first got his start as a barber, he discovered other African-Americans in the field were reluctant to share the secrets of the craft. But that didn't stop him from working his way up, and eventually, he earned the trust of two white barbershop owners who took time to share with him how they made their operations successful. The two warned him that what worked for them might not work for him, but they needn't have worried. Washington took their advice and put it into action, and now he operates Ricos Barber Shop in Murrieta, California. He shares what allowed him to succeed in this guidebook to establishing a barbershop as well as insights from a thesis on the business's racial and gender dynamics in Riverside County, California. Get ready to learn how to retain clients, serve a diverse customer base, and enhance relationships with men and women of all colors with the proven business strategies and astounding insights in *The Passion of Barbering*.

The Future and Its Enemies - Virginia Postrel 2011-05-10

Today we have greater wealth, health, opportunity, and choice than at any time in history. Yet a chorus of intellectuals and politicians laments our current condition -- as slaves to technology, coarsened by popular culture, and insecure in the face of economic change. The future, they tell us, is dangerously out of control, and unless we precisely govern the forces of change, we risk disaster. In *The Future and Its Enemies*, Virginia Postrel explodes the myths behind these claims. Using examples that range from medicine to fashion, she explores how progress truly occurs and demonstrates that human betterment depends not on conformity to one central vision but on creativity and decentralized, open-ended trial and error. She argues that these two opposing world-views -- "stasis" vs. "dynamism" -- are replacing "left" and "right" to define our cultural and political debate as we enter the next century. In this bold exploration of how civilizations learn, Postrel heralds a fundamental shift in the way we view politics, culture, technology, and society as we face an unknown -- and invigorating -- future.
